

Ransom Negotiators Arrive In Havana—

HOPE HELD BY VISITORS

—STOPGAP MOVE—

Kennedy Asks For Extension Of Jobless Aid

Washington (UPI) — President Kennedy asked Congress Tuesday for a stopgap, one-year extension of a temporary program of extended unemployment compensation for workers who have been idled for long periods.

The proposed legislation was drafted hurriedly during the past two weeks by Labor Secretary Arthur J. Goldberg after it became apparent passage of a permanent extension of benefits was unlikely this year.

Kennedy said the proposed extension could be financed from already-approved employer taxes for 1962 and 1963 and an increase of "only 0.1% in the tax rate for 1964."

He said Goldberg estimated that 1.5 million long-term unemployed would benefit from the proposed extension.

The maximum duration of benefits was extended from 26 to 39 weeks on a temporary basis last year. That program expired April 1.

In letters to both Houses, Kennedy said "immediate action is required so that the benefits of the program can continue."

Available

He said \$184 million will be available from the special taxes to be collected under the expiring program because that extension "did not cost as much as had been estimated."

As a result, he said, "an increase of only 0.1% in the tax rate of 1964 is necessary to financing the remaining cost of the extended program."

The expired extension was financed by increasing the federal tax on payrolls to 3.5% during 1962 and 1963. The rate is scheduled to drop to 3.1% in 1964. Kennedy's proposal would peg it at 3.2%.

—ELECTROCUTED—

2 Highway Dept. Men Are Killed

Omaha (UPI)—Two State Highway Department employees were electrocuted Tuesday when a steel measuring rod they were handling touched a high tension wire on an Interstate 280 construction project here.

The men were identified as David Craig, 21, Hebron, and Donald L. Howell, 29, of 2141 A St., Lincoln.

The men were working in north Omaha just west of the Mormon bridge (near 72nd and State Sts.).

The men were dead on arrival at a hospital, authorities said.

Both men were engineering aides.

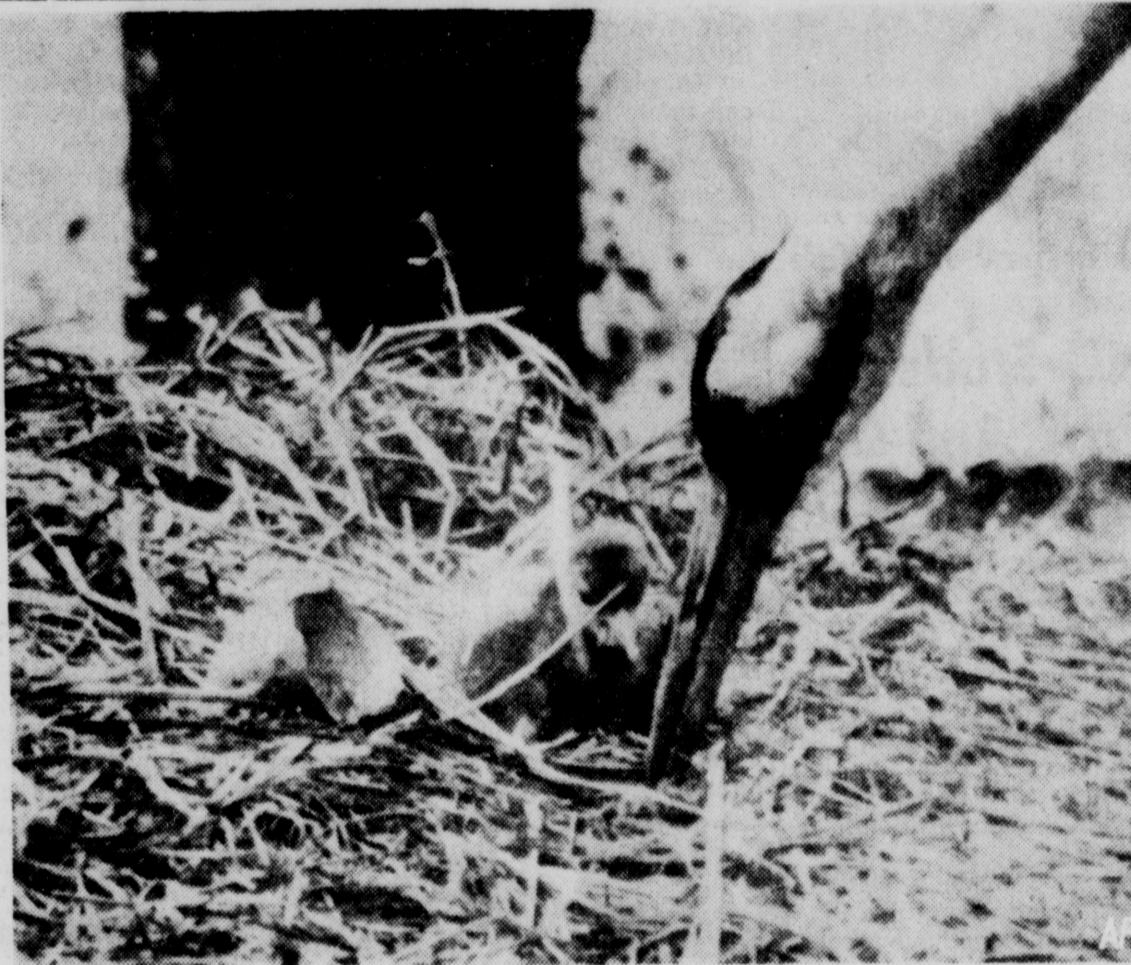

Highway Department officials said Howell, a native of Blueford, Ill., had been with the department since Feb. 5. He came to Lincoln following 8 years service in the Air Force and lived with a brother, Richard R. Howell. He was unmarried, and attended Murray State Teachers College in Kentucky prior to entering the Air Force.

Craig, also unmarried, was a Hebron High School graduate and had attended business college in Omaha before joining the highway department in August, 1960.

Air Base Holds 'Training Alert,' 1st In 2 Months

The Lincoln Air Force Base had a "regular training alert" starting at 6:35 p.m. Tuesday, a spokesman said. The alert was still in progress early Wednesday.

The LAFB spokesman said the alert, a test of the Strategic Air Command base's military readiness, was the first since one held approximately two months ago. Although many LAFB men live in Lincoln, the spokesman said traffic to the base was not badly jammed up on highways leading to the east and west gates. He noted that Interstate 80 helps.

WATCH IT THERE, DAD

Poppa whooping crane Crisp bends down to peck at straw next to his latest baby, hatched at Audubon Park Zoo. This is the 5th offspring of Crisp and his "wife" Josephine and increases the world population of the rare bird to 38. Crisp and Josephine are taking turns incubating a 2nd egg which zoo personnel in New Orleans hope will hatch by the end of the week.

Guard 'Saved' Lincoln Water

ASHLAND OPERATION 'HUSHED' TO PREVENT POSSIBLE PANIC

By WILLIAM A. STEPHENS
United Press International

When Nebraska National Guardsmen were waging their recent fight to save Camp Ashland from floodwaters, their primary aim was not to save the camp, but a more important goal — to save the water supply for the entire city of Lincoln.

This was revealed to United Press International after it was learned that the city had been in serious danger of losing the water supplied by all 33 wells west of the Platte River near Ashland.

The primary goal of the flood-fighters had been hushed to prevent a possible panic in Lincoln and to prevent rumors of polluted water from spreading across the city.

Officials had feared that the river would break through at the bend where it strikes the banks at Camp Ashland and meander through an entirely new course straight south to Salt Creek, then following the creek back to the main river channel.

If this occurred, most or all of Lincoln's water wells would have been destroyed.

Governor Morrison said that he sees no reason why the main purpose of the Guard mission should not be revealed.

The governor said that he has asked the U.S. Corps of Engineers to build a series of piers along the river north of the camp to help cut down on the erosion problem at the curve in the river.

Also commenting on the problem was David L. Erickson, director of public works and utilities for Lincoln. Erickson said that city officials were "somewhat concerned" during the flooding that a few or all of the wells might be ruined.

He said the city is currently placing rip rap near one of the wells which is closest to the river, but that so far there has been no danger of pollution.

Not Even A Burglar Can Drink At Work

London (UPI)—Insurance broker William Catchpole returned home and found a strange man in his favorite chair, stretched out before the fire.

Not only that, the stranger was drinking Catchpole's favorite brandy, had on the insurance man's best suit, and was wearing Catchpole's favorite tie and a pair of his shoes.

"Good evening," said Catchpole, "I hope you are enjoying yourself."

"Howsh shat?" asked the stranger, obviously the worse for drink.

Without batting an eye, the insurance man walked to the telephone and called the police. Until the cops arrived he kept the man in conversation.

In a magistrate's court, the stranger heard prosecutor Geoffrey Leach say:

"This is the sad story of a burglar who failed to stay sober on the job."

Drink Or Two

The prosecutor said the accused, Stephen Shippen, 40, had entered other houses during the day, having a drink or two at each stop.

"When he reached Mr. Catchpole's house," he added, "he'd had quite a few."

Shippen pleaded innocent. The magistrate held him for trial.

TALK WITH FIDEL

Envoys Have \$26 Million In Cash

By GEORGE ARFELD

Havana (AP) — Prime Minister Fidel Castro met for 4 hours Tuesday with negotiators on the \$62 million ransom demanded for 1,179 Cuban invasion prisoners. After Castro left, one of the negotiators said: "There is hope."

Word of the meeting apparently reached the prisoners at Principe Prison. Happy shouts were heard from their cell-blocks. Some waved undershirts from behind barred windows to a small crowd of friends and relatives clustered outside the gate.

A spokesman for the negotiators said he was hopeful Castro would return for a second meeting. The first session was held at the home of friends of the negotiating team of 3 men and a woman who arrived from Miami.

Security agents rushed the visitors through the immigration office's formalities. Then the 4 were whisked off in an automobile in the company of friends.

One of the negotiators, Mrs. Virginia Betancourt de Rodriguez, is the wife of one of the prisoners for whom Castro is reported demanding \$100,000. Each of the others has a son among the captives.

Alvaro Sanchez Jr., head of the mission, told newsmen "we're not allowed to make any statements until we are through seeing the authorities."

The others are Enrique Liaca, treasurer of the Cuban Families Committee for Reparation of War Prisoners, and Ernesto Freyre. All are Cuban exiles.

All the prisoners, captured in the Bay of Pigs invasion nearly a year ago, are under prison sentences ranging up to 30 years unless their friends pay a ransom of \$62 million—from \$25,000 to \$500,000 each.

This would be a record so far as such known international payments per head go, exceeding the \$28 million worth of tractors Castro demanded in exchange for the prisoners last July, and the Nazis' proposed barter of 100,000 Jews for 10,000 trucks that fell through in World War II.

They Are Hopeful

Before leaving Miami, the negotiators said they were hopeful that Castro could be induced to accept the \$26 million in cash they have ready. They said they also had \$2 million more in pledges and might be able to offer merchandise in addition.

The visitors apparently were encouraged by the readiness of Cuban authorities to clear their way to enter the country. The U.S. State Department has kept hands off the matter.

A writer in the communist Daily Hoy charged, however, that non-communist newspapers were trying to sway public opinion against the exchange plan. He said the Cuban government "has generously pardoned the lives that it had all right to suppress" and that "only miserable blackmailers" could compare it with Hitler's trucks-for-Jews proposition.

(In Washington, State Department Press Officer Lincoln White told newsmen the U.S. government "certainly will not interpose any objections" to negotiations for release of the prisoners.)

(White declined, however, to discuss what U.S. policy will be toward the actual delivery of money or goods to ransom prisoners if the refugee committee succeeds in making a deal.)

REGINA LEONAS . . . changed plans?

Young Lithuanian Girl Won't Return To U.S.

. . . RED PAPER REPORTS

Moscow (AP) — A young Lithuanian girl who returned to her communist homeland from Chicago to marry a childhood sweetheart was quoted in a Soviet newspaper Tuesday as saying she will never return to the United States.

Regina Leonas, 22, appeared to have changed her plans since her return to the Lithuanian capital of Vilnius last March to marry a young music instructor, Stasis Bilkulcius.

Before leaving the United States she indicated she planned to try to bring her husband back if Soviet authorities permitted. The youth newspaper Komsomolskaya Pravda quoted the girl as saying: "I will not go back there again."

Reunited in '60

Miss Leonas is the daughter of Mr. and Mrs. Paulius Leonas of Chicago. They were separated from their daughter during the war and were reunited in 1960.

Komsomolskaya Pravda accused the American press of making a "dirty sensation" out of the family reunion.

It said the American propagandists tried in vain to get Regina to slander the Soviet Union. It noted that she was invited to discussion meetings of a Catholic youth group.

Couldn't Understand

The newspaper article said: "but Regina, who was

brought up on the principles of a different honest morality, could not understand why the participants in the discussion did not touch on the political and social problems of America."

The article said the girl rebelled against family attempts to interest her in the son of a rich neighbor. It said she also realized that Americans were living in "constant fear."

"She longed for the life in which a man is not valued by the size of his pocket book," it continued.

Despite Protests

The newspaper said Regina decided to return to Vilnius despite the protests of her parents.

"The lone victory in Chicago of a Soviet girl was, of course, a disaster for the American bourgeoisie propagandists," it added.

"All their efforts to win Regina to a belief in the dollar met complete failure."

Ended With Quote

The lengthy article, purporting to contain the girl's views of the United States, ended with the only other quote attributed to her:

"I love the people who raised me, I love my native country where I grew up and went to school. Love for my socialist Soviet homeland, for the friends of my youth, brought me back to the gay and ever young Vilnius."

Father Calls Russian Story 'A Lot Of Bunk'

Chicago (AP) — The father of a Lithuanian girl who returned to her Communist homeland from Chicago to marry her childhood sweetheart said Tuesday the Soviets are using his daughter "to further their dirty propaganda."

Paulius Leonas, a real estate man, termed "a lot of bunk" a Soviet newspaper story which quoted his daughter, Regina, 22, as saying she would never return to the United States.

Leonas said he and his wife received word from their daughter and her sweetheart a few days ago saying they would come to the United States if they are permitted to leave Lithuania.

"She certainly wants to come back," Leonas told the Associated Press. "Before her departure, she made arrangements with immigration authorities for re-entry after she and her sweetheart are married."

"But the Soviets have rejected her plans to marry and bring her husband back to the United States. They would not even consider it," Leonas said.

"She has no choice about leaving," he added. "She is virtually a prisoner. They are using my daughter for their dirty propaganda."

Leonas asserted that his daughter did not return to Lithuania because she loved a socialist country.

"She returned because she loved a boy and was terribly lonely without him," the father said. "All she wants is permission to bring her sweetheart back to this country."

Douglas Aircraft Testimony: Million Made On A \$3,316 Investment

Washington (AP)—Testimony that the Douglas Aircraft Co. collected \$1,211,790 profit on a \$3,316 investment in government missile contracts was presented before Senate investigators Tuesday.

The figures were offered by a Senate subcommittee accountant after Douglas President Donald W. Douglas Jr., challenged previous testimony that his company had received total profits of \$63.81 million on Nike missile contracts since 1952.

Douglas contended his firm's actual profits were less than half of that figure, running to a "reasonable" \$29.8 million.

He told the Senate Investigations subcommittee that its accountants had mistakenly included \$34.01 million of legitimate business expenses in the profit column.

Chairman John L. McClellan, D-Ark., called staff accountant Thomas E. Nunnally to the stand and after some preliminary questioning about Douglas contracts asked:

Reds Told: Still Time For A Ban

Washington (AP)—The United States and Great Britain served eleventh-hour notice on Russia Tuesday that U.S. nuclear testing in the atmosphere will go ahead unless the Soviets agree to a cheating ban.

The U.S.-British statement was agreed on by President Kennedy and Prime Minister Macmillan in view of the stalemate in Geneva test ban talks. American atomic tests are slated to start in the Pacific by the end of this month.

In addition to the joint statement, delivered in Moscow Monday and made public at the White House Tuesday, Macmillan sent a personal followup message to Soviet Premier Khrushchev.

The American-British declaration summed up the oft-stated Western view that international inspections are needed for a workable treaty to outlaw nuclear tests.

Moscow Reaction

Moscow (AP)—Moscow Radio Tuesday night described the joint British-American appeal for Soviet acceptance of an effective ban on nuclear tests as a face-saving maneuver.

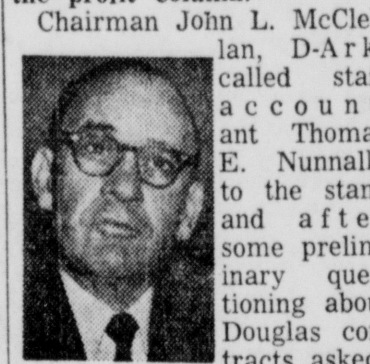

Gromyko To Visit

Belgrade (UPI)—Soviet Foreign Minister Andrei Gromyko will make an official visit to Yugoslavia starting April 16, that Yugoslav news agency Tanjug said.

million on Nike missile contracts since 1952.

Douglas contended his firm's actual profits were less than half of that figure, running to a "reasonable" \$29.8 million.

He told the Senate Investigations subcommittee that its accountants had mistakenly included \$34.01 million of legitimate business expenses in the profit column.

McClellan called staff accountant Thomas E. Nunnally to the stand and after some preliminary questioning about Douglas contracts asked:

"When they got the \$63.81 million, that was profit and they called it profit?"

"On their documents, that is correct," Nunnally replied.

Nunnally and Robert E. Dunne, assistant subcommittee counsel, placed in evidence what they described as records from Douglas company files. Nunnally said these showed that \$3,316 was the entire cost to Douglas for one order for 1,032 Nike launcher-loader devices in 1956-57.

The launcher-loaders were manufactured by Consolidated Western Steel Co., on a sub-contract from Douglas, and delivered to the Army with a bill for \$16,408,800, Nunnally said.

McClellan brought out that \$1,211,790 of this went to Douglas Aircraft and \$1,733,286 went to Western Electric Co., the chief contractor. Western Electric had passed the job along to Douglas, which in turn passed it to Consolidated Western.

Nunnally said Douglas records listed \$3,316 for engineering, inspection and general overhead as the company's only expense in connection with the order.

Cots stacked in rows at new Irvingdale fallout shelter.

LAFB Lieutenant Resumes Flight From New York

Newburgh, N.Y. (AP)—1st Lt. Cornelius Cosentino, Tuesday resumed his flight to Lincoln, Neb., Air Force Base after spending the night at Stewart Air Force Base here, unaware that he had been feared missing in northern New York.

Cosentino took off Monday morning from Plattsburgh Air Force Base with fuel for a 3-hour flight. He had planned to check in at Glens Falls, Albany, and Teterboro, N.J., and was to land at Pottstown, Pa., to refuel.

However, he departed from his original flight plan and landed his T34 trainer here at 2 p.m. because of bad weather ahead.

Letters By Glenn Bring Fine Price

New York (UPI)—Letters of astronaut John H. Glenn Jr. to an auto dealer complaining about a faulty battery in his car brought \$425 at an auction at the Parke-Bernet Galleries Tuesday.

NU Students Pass Anti-CD Literature Out

University of Nebraska students handed out literature opposing the civil defense program at the dedication ceremonies of the Irvingdale Fallout Shelter.

A pamphlet, entitled, "Colossal Deception" by Dr. Linus Pauling summarized reasons for Pauling's opposition to the fallout shelters.

"I have made a study of this great problem," Dr. Pauling stated, "and have reached the conclusion that for the United States to embark upon a great program of shelter construction would not provide protection, but instead would increase the already great danger to our nation and to the American people."

"I believe that the only rational course for the world to follow is that of working toward the goal of general and complete disarmament . . ." Pauling said further.

A second piece of literature was headed "Civil Defense—Colossal Deception" and included quotations from well-known persons concerning the defense program.

New Fallout Shelter Dedicated In Lincoln

Keys to the new Irvingdale Fallout Shelter at 18th & Van Dorn, which was dedicated Tuesday, were presented to Acting Mayor Del Tyrrell and Lancaster County Board Chairman Ralph Harlan.

In accepting the keys Tyrrell and Harlan both indicated that they hoped that the keys would never have to be used for the purpose of entrance in time of disaster.

Approximately 200 persons attended the dedication ceremonies and toured the shelter, which will accommodate 1,500 in time of disaster.

Gov. Frank Morrison said: "It is our duty to preserve and to protect" the nation so that it may move on to fulfill its ultimate destiny.

"No place in the country can safely ignore fallout shelters," Paul S. Visser, U.S. deputy assistant secretary of defense, in Lincoln for the dedication, stated.

'Can't Ignore'

He said that Lincoln cannot ignore the practicality of fallout shelters just because it is near a major defense installation.

"There is no place in the country that is so safe from being hit that a low-priced shelter isn't a good investment," he said.

At the dedication he commended Lincoln and Lancaster County for the "active and fine work."

Visser was the featured speaker at a noon luncheon, sponsored by the Lincoln Chamber of Commerce, the

Tersely Told Tales

Washington (AP)—Foreclosures on homes and small businesses have reached the highest level in 21 years, it was disclosed Tuesday. The spurt may prompt tighter credit-checking of home buyers by the Federal Housing Administration.

A total of 73,074 households and businesses lost their property by foreclosure in 1961, the Federal Home Loan Bank Board reported. This was an increase of 42% from the previous year and almost matched the 75,556 recorded in 1940.

Los Angeles (AP)—A jury trying ex-gambling kingpin Mickey Cohen and 4 others on murder and conspiracy charges reported itself hopelessly deadlocked Tuesday and was dismissed.

Erie, Kan. (AP)—Kenneth L. Beene, 59, self-styled prophet of doom for Erie, was released from jail Tuesday after completing a 30-day sentence for causing truancy of his two younger children. His 46-year-old wife will finish a similar sentence Friday.

New York (AP)—"The Night of the Iguana" by Tennessee Williams was named Tuesday the best American play of the Broadway season by the New York drama critics circle.

REV. CRAWFORD CITES 4 WAYS TO EVADE WAR

World War III can be prevented in 4 ways, the Rev. Curtis Crawford said Tuesday night at the University of Nebraska and recommended the 4 methods be advocated by a "massive peace movement in this country, politically effective."

The ordained Unitarian minister from New York City told 75 Lincolinites and students:

"In the West, total disarmament with effective controls has become an academic question."

The University of Chicago graduate will speak on "A Sane Nuclear Policy" at 11 a.m. Wednesday in the NU Student Union.

His 4 solutions to preventing World War III:

—Strengthening the United Nations by setting up a permanent International Conciliation Commission to arbitrate disputes.

—Strengthening sense of world community by greatly increased educational and cultural exchanges between the U.S. and Russia.

—Increasing emphasis on negotiating territorial disputes, starting with internationalization of Berlin.

—Changing priorities of weapons to be used in case of war.

City Hall Business

By WILLIAM O. DOBLER

Busy City Council sessions have long been a matter of routine and the one this week was no exception. And it was the usual run of business that kept the city officials hopping. Once again the council faces the problem of sidewalk parking and this has never been an easy matter to deal with. Before the council is an ordinance repealing city code provisions permitting the parking of cars in sidewalk areas.

One would not think that this matter could be as controversial as it is but city officials will testify that it can be a pretty hot potato. Such parking is now permitted by special request for the area between the public sidewalk and the street curb line. One's first reaction is to approve of the practice since it still leaves room for pedestrians and would seem only to make good use of unused land. But the matter is not that simple.

Involved is public land and people are notoriously jealous of that which belongs in the public domain. They don't like the public domain used for private business.

While the parking involved is public in theory, it is not public in practice. The fact is that such parking is invariably latched onto by the adjoining businesses and used only by them. This happens because the average person isn't sure whether he can use the space, even though it is posted as approved parking, and because the adjoining businesses get to it first.

It is a fact, too, that those who use such parking for their own try to discourage the public from using it. Some businesses are not averse to advising the public, against the law, that it cannot park in the approved space. Thus, what is intended as public parking is pretty nearly always private parking.

There are, also, other complications to the matter. With sidewalk parking permitted in one place and not in another, it presents a difficult enforcement problem. Nor is there much question that such parking involves a lot of driving over the regular sidewalks. The net result is a use of public lands in violation of the principles that should apply to them. It is the kind of thing that breeds dissatisfaction and suspicion among the general public and, therefore, should be stopped by the City Council. The extensive use of the public streets by one bank for a temporary drive-in facility has created a lot of public ill will and that use, too, should never have been permitted in the first place.

If the public attitude on such things is a little bit narrow, then so be it but there is

something to be said for that attitude. If the people ever got to the point where they didn't care about what was going on, then we would really have something to worry about. It is a good thing that the public takes a dim view of abuses which accrue to the special benefit of a few selfish interests, even though the abuse may have some good elements in it. The parking situation helps overall parking but to a very limited degree and the bank situation helps local business but neither can be justified on this basis. You could give away all the streets and other public lands in town on a basis such as that. And once the line is broken on this sort of thing, it is difficult to hold it on other fronts. Sidewalk parking should go and it is hoped there is never another business that gets a part of city streets given to it for the conduct of private business.

Another interesting development this week at the City Hall was the appointment of Robert Fulton to fill the council vacancy created by the resignation of Kenneth Lewis. Fulton was not among those from whom the council was expected to make a choice. The appointment, however, was a good one from several points of view.

For one thing, Fulton has a keen sense of public service, has the integrity it takes to serve and is tied to no special interest group. If he has any prejudices one way or another, they have never shown up in the other work he has done. It is believed that he will be a conscientious and fair-minded public official and call the shots as he sees them in a basis of fact.

Secondly, Fulton is an engineer and this probably is one of the main reasons he was selected. It is no secret that the city's Engineering Department and the overall Department of Public

Works and utilities have long been eyed by the City Council. The Department of Public Works and Utilities and under it the Engineering Department are in need of reorganization. Both are behind the times in this regard and have been for a good long time. They have never in recent times been able to fulfill the job assigned to them because the job has always been bigger than the department.

Department Director D. L. Erickson has said that he intends to retire soon and is interested in finding a qualified successor. Be this from within the department or from the outside, the matter should be settled and the department streamlined and expanded, and Fulton will be an invaluable asset in getting this job done.

Millions For Schools

Announcement by the Board of Education of plans to submit a \$12 million bond issue to the voters on Oct. 9 comes as no surprise. It calls for a detailed explanation of the system's past operations and this will be forthcoming in the days preceding the election. If the measure is to be approved, the public will have to be thoroughly informed on the efficiency of past construction, on future staffing and maintenance cost and future enrollment expectations.

But the proposal displays a sense of urgency even without the answers to all the questions that might be asked. The total \$12 million being talked about would carry the school district only through the 1967-68 school year and meet increased enrollment of 9,000 students. Thus, the district once again finds itself unable to catch up with its growing demands.

It cannot get the next bond issue paid off before further enrollment increases present a new problem. It is impossible, of course, to say exactly what the picture in 1968-69 will be but we would anticipate no decline in the number of school-age children. The enrollment projections made by the district do not take into account, either, any increase in the population of the city. This factor alone could play havoc with present plans.

In all, the picture is not a particularly bright one from the point of view of taxation but there seems to be no alternative. Complaints against lavish construction, excessive facilities in certain areas and the tax load itself will have to be fully answered but there is no question that this can and will be done. Once the entire picture is understood, it will show a responsibility that cannot be ignored.

Strained Criticism

Despite the fine and sound public service it has consistently performed, the Rural Electrification program is ever the victim of sniping.

A recent example is a hullabaloo at Craig, Colorado, where an REA loan in the amount of \$15.6 million is in the making for help in constructing a \$31 million public power steam generating plant. There seems to be nothing in the evidence that says the plant is not needed nor that the planning is unsound, nor that good will not ensue from it. But the point, a rather microscopic one, is being made that the public was not fully informed at every turn in the events.

Rural electrification is not a stealthy movement. Indeed, it has been such a successful and popular program that those engaged in it, themselves, are forever talking about it in detail. Moreover, since it is

a segment of public power all of its problems as well as its successes are public property over which few if any of the usual rights of privacy obtain. It is surprising that critics have brought such a charge against the Craig plant. No loan can be extended in violation of rigid standards, known to any one who cares to find out. The REA administration is beholden to Congress. And in the case of Colorado there is a state utilities commission which still must be satisfied even after all of the hurdles of the REA have been cleared.

The record of the REA movement is particularly clean. It also has been conducted with rare business prudence. There have been precious few operating failures. The debt repayment record is enviable. These things could not exist if the REA were substantially guilty of one tenth of the allegations brought against it.

Campaign Funds

Both major parties agree that the present \$3 million spending limit on national campaign funds is unrealistically low and that a \$14 million limit for each would be more realistic.

The Senate has already passed a bill to

that effect and there is other pending legislation which would give tax exemption to campaign contributions up to \$10 per giver.

Regulation of campaign expenses and contributions form a knotty problem and Congress has always dealt delicately with it, which means that regulatory legislation is hard to come by. Essentially, the ethical handling of campaign income is an individual matter, affected mostly by a candidate's view of how far he should go in his gratitude to substantial contributors, and to the size of his campaign problems in relation to the size of his fund sources. In the national campaign it is a problem in direct relation to the cost of getting adequate communication with the maximum number of voters.

Tax exemption for contributions up to \$10 is inoffensive and would act as an encouragement to grass roots participation. But, of course, the \$10 givers have never posed a problem of influence. All manner of legislation of that nature would not get at the unspoken core of the matter, which is a system of support and reward for the amenable office holder.

The Congress might take a constructive step to correct the latter by providing for a closed examination and audit of all campaign funds, plus the requirement that surpluses revert to the party treasury and not remain in the possession and at the discretion of the elected individual.

"Hold Still—I Just Want To Get That Fly"

DREW PEARSON

Punished For Being Right

WASHINGTON — The senators haven't noticed it, but there's an ironic vindication for Col. John N. Nickerson in the revelation that Douglas Aircraft, Western Electric, and a subsidiary of U.S. Steel pyramided exorbitant profits in making the Nike missile-launcher loaders.

This maneuvering by big defense contractors to get next to the missile gravy was what Col. Nickerson warned against, and he specially named Douglas and Bell Telephone which with Western Electric is part of the giant American Telephone and Telegraph combine.

"The aircraft industry and particularly the Douglas Aircraft Company openly oppose the development of any missile by a government agency," Nickerson charged in his secret memo which later led to his court-martial.

And referring to the memo of Secretary of Defense Charles E. Wilson favoring Douglas and Bell, Nickerson continued: "It is suspected that the Wilson memorandum has been heavily influenced by lobbying by this company and by the Bell telephone company."

"High officials of the Douglas company have stated that

Douglas is paying particular attention to the possibility of calling off the operation at Huntsville, Ala.," continued Nickerson, referring to the Army's ballistic missile base which produced the Jupiter and Redstone missiles.

Another significant portion of the Nickerson memo read: "Discontinuance of the Army missile will result in the concentration of the following programs in the Bell-Douglas combination: Nike and Nike II, IRBM, and ICBM. This is too much missile concentration in one combination. Should one add the SAGE and CESAR program at Bell and the Navy and Air Force contracts at Douglas, the over-concentration is obviously serious."

However, Col. Nickerson's memo was ignored. The American Tel and Tel combine had one of their former executives, Donald Quarles, inside the Defense Department as secretary of the Air Force, later deputy secretary of defense, while Don Douglas long had the inside with the Air Force. At one time he was married to the daughter of Gen. Hap Arnold, chief of the Air Corps.

So the Douglas-Bell-General Motors combine got their way.

DORIS FLEESON

Small Output Frets Congress

WASHINGTON — Congress is headed toward a prolonged and rancorous home stretch despite its early brave hopes of a July adjournment. Members complain of it but have not been able to devise an alternative.

One-third of the Senate and all of the House must defend the record, or lack of it, in the campaign this fall. It is apparent that President Kennedy, like his immediate predecessor, rises and falls in public esteem very largely on the basis of his conduct of foreign affairs.

In the absence of economic catastrophe — and none is in sight — this leaves him free to campaign for his party candidates and still appear to be above the battle. It is a presidential advantage unlikely to disappear in the near future.

Some infuriated House Republicans are blaming the press for this state of affairs and profess to believe that the Kennedy skill in public relations is the enemy. The President certainly has managed his public relations skillfully so far and has even extended them, in the Eisenhower manner, to publishers.

But it should be remembered that President Eisenhower, who scarcely bothered with reporters, was able to hold public regard independently of what Congress did or failed to do. The White House has also the built-in propaganda advantage that it can make a show of vigor on many topics, while Congress is judged on the basis of roll calls on actual legislation.

Adding insult to injury, the Supreme Court has appeared more active in recent months than Congress.

The aggrandizement of the

THEY WALKED WITH CHRIST

Pontius Pilate

Pontius Pilate, who became procurator of Judea under Tiberius Caesar in A.D. 26, was a product of Roman society during the early Empire.

He was military in bearing, tactless, skeptical, arbitrary. Almost from the first day of his arrival in Judea, there existed an implacable hatred between him and the people he ruled.

He regarded the Jews with haughty contempt. From his point of view, they were a superstitious, refractory rabble, wrangling among themselves over religious usages for which he felt only a profound scorn.

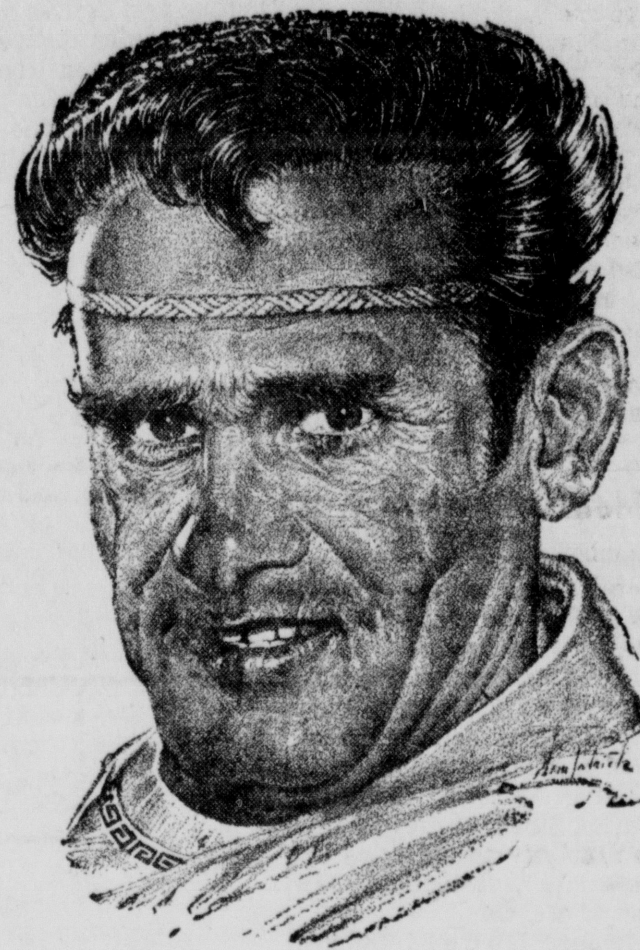

Twice before the trial of Jesus, he had been forced to yield to the will of the populace, or risk open rebellion that might cost him his position.

The first time occurred when he brought army standards bearing the likeness of the Roman emperor into Jerusalem, thus profaning the holy city. After five days of uproar and rioting, he removed them.

On another occasion, the Jews forced him to remove a set of Roman votive tablets from Herod's palace, which he occupied in Jerusalem. The people appealed that time directly to Tiberius, who ordered them taken back to Caesarea.

Pilate knew that Jesus was innocent. He had secret spies among the people who had reported almost daily on the Nazarene's activities.

Moreover, there is good reason to believe that Pi-

"Pilate therefore went forth again, and saith unto them, Behold, I bring Him forth to you, that ye may know that I find no fault in Him." —John XIX:4

late's wife, Claudia Procula, had actually met Jesus, and was one of His secret followers.

During the trial, she sent Pilate a message, warning him to "have nothing to do with that just man."

But, "when Pilate saw that he could prevail nothing, but that rather a tumult was made, he took water and washed his hands before the

multitude, saying, I am innocent of the blood of this man . . ."

In the most critical decision of his career, the "fearless" Roman had again bowed to the shouting, factious, bloodthirsty mob.

Tradition says he never forgot this tragic hour. A few years afterward, in exile, "worned with misfortunes," he killed himself.

Your Four Cents Worth

Brevity in letters is requested, but length in itself will have no bearing on publication. Writers are advised that needless details and repetitious matter will be edited out of letters. Too frequent contributions from one person on the same subject may be rejected. All letters must be accompanied by writer's true name but may be submitted for publication under a pen name or initials. However, letters will be printed under a pen name or initials only at the editor's discretion.

Urban Renewal

Lincoln, Neb.

I trust that the proponents for an Urban Renewal Authority are deriving their full pound of flesh or satisfaction in publicly degrading and down-grading our outstanding city. Such unfavorable publicity casts undeserved reflections on the great majority of Lincoln home-owners.

Where are the city-paid officials who are supposed to check these situations and what are they doing about it?

It is hoped that this sort of propaganda will be effectively squelched at the primary election on May 15.

LEO N. BARTUNEK

Editor's Note: If recognition of defects is a "degrading" or "down-grading" thing, we would be hamstrung in making any progress or improvements. Urban renewal is a mark of pride by attempting to make a good city even better. As for present city officials handling the problem, they lack the tools in terms of codes or laws, ability to engage in a comprehensive plan and the essential power of eminent domain.

Merry Menagerie

Lincoln, Neb.

Just wanted to say how much we miss "Merry Menagerie" in The Star. It was one of the first things we looked for. We have a daughter in Michigan who wanted to send every one to her. She asked me to see if The Star might resubscribe from the syndicate if it knew that people missed "Merry Menagerie."

MRS. CHARLES CHURCH

Editor's Note: The Star also regrets the loss of Walt Disney's "Merry Menagerie." This panel is no longer available for publication, the syndicate itself having taken it off the market.

Jackie's Trip

Fremont, Neb.

Since Jackie Kennedy has been on parade, it has cost this country \$72,000 (acknowledged) just for the two colored movies of her trip. This does not include the Secret Service protection, press publicity, and other expenses provided by the American taxpayer.

With no diplomatic status whatsoever, it is a misnomer to say her trip was even "semi-official." Why, then, should we have this enormous added expense when the taxpayers are already so over-burdened that her Jack is constantly telling us to tighten our belts still further?

It would be much more becoming for his wife to be home acting like a model

American mother instead of traipsing to the other side of the world, riding elephants and at the same time, ridiculously enough, trying to copy Queen Elizabeth! Imagine her own sister having to walk "respectfully six paces behind her august relative!" Is this American democracy?

It appears to be time for some investigating into just what is going on in our White House, or should I say the "White Palace?"

The American people do not wish to be reduced by over-taxation and usurped power into being subjects of any Kennedy dynasty!

WEARY TAXPAYER

Thank You

Lincoln, Neb.

On behalf of the 1962 Founders' Day Committee and all Nebraska Republicans, we wish to thank The Star for the good coverage given us leading up to and including our convention. The front-page coverage received on Saturday, April 7, I am sure helped to stimulate our activities.

JACK SCHUETZ

Secretary

The Provisions

Hastings, Neb.

Complaint is made by those championing liquor by the drink that there are clubs in Lincoln providing their members with liquor by the drink, and they are demanding the same privilege. Those clubs can be made to change such violations of the intent and purpose of the law having to do with handling hard liquor. Just why the principle declared in the federal Constitution has been ignored so long is hard to understand.

The Declaration of Independence sets forth: "Governments are instituted among men, deriving their just powers from the con-

sent of the governed. That whenever any form of government becomes destructive of these ends, it is the right of the people to alter or abolish it and institute new government, laying its foundation of such principles and organizing its powers in such form as will seem most likely to affect their safety and happiness."

The city of Lincoln is a governmental agency. Certain clubs are dispensing liquor. That nullifies the liquor laws of the state. "It is the right of the people to alter or abolish it and institute new government, that shall seem most likely to affect their safety and happiness."

Why isn't it being done? Or is the Declaration of Independence a fake and monstrosity and unworthy of due consideration?

CECIL E. MATTHEWS

No Help For Farmer

Blair, Neb.

Senator John McClellan, chairman of the U.S. Senate's Investigations Committee, is claiming that Douglas Aircraft made over \$45 million in profits from government contracts on which subcontractors did 82 per cent of the work, and further states that the records of Douglas Aircraft will prove this.

Nebraska's Senator Curtis, in defense of Douglas and their profits, is quoted as saying: "I don't think they know what they are talking about." He was referring to the subcommittee investigators.

With Senator Hruska spending almost full time fighting for gas, oil and drug monopolists, and now Curtis swinging out for the big defense plant industrialists, while both fight every attempt made in Washington to help the farmer, there is little wonder that eyebrows are raised in our nation's capital city.

N.Y. Teachers Okay Strike

New York (AP) — Some 5,000 teachers voted by a close margin Tuesday night to strike the city school system Wednesday.

The vote of 2,544 to 2,231 came after a stormy meeting at which leaders of the union had urged the rank and file not to vote a strike.

The voting by a capacity crowd of teachers at St. Nicholas Arena began at 4 p.m. and ballot boxes did not close until 7 p.m. it took another 3 hours to count the ballots and announce the results.

The strike vote also directed negotiators not to reach any settlement with board of education "unless the board agrees to make available more than \$33.8 million for salary increases for teachers."

The United Federation of Teachers originally scheduled a strike for the opening of

Houses In Capitol Area Come Down

Workmen started to raze 4 state-owned houses in the area of 16th and 17th Streets near the Capitol to provide more parking space for state vehicles.

According to Capitol Building Superintendent Robert Newell, 3 houses located near 17th and H Streets and a 3-story frame building at 16th and H will be torn down. The buildings have been unoccupied.

classes Tuesday in the city's 900 public schools. However, a 24-hour postponement was announced Monday night to permit a rank-and-file vote on a compromise proposal by city officials.

The UFT, which bargains for all of the city's 40,000 teachers although only about a third of them are union members, has demanded pay increases totalling \$53 million a year.

The city says it has only about \$28 million available for wage increases. But Mayor Robert F. Wagner proposed to appoint a 3-man fact finding board to seek additional sources of money to add to that amount.

Top officials of the UFT accepted the city's proposal. However, they were overruled by the UFT's governing body, the delegate assembly, and the entire matter was placed before the rank-and-file for their decision.

Stephenson Bid On City Library Shelves Accepted

The Library Board awarded a \$29,985 contract Tuesday to Stephenson School Supply for furnishing steel book stacks with wood panels for the new Bennett Martin Public Library.

Libraries Director Charles Dalrymple said Stephenson was low bidder. Purchase will be made from the general budget.

In other action, the board authorized Dalrymple to take bids on a new circulation desk and card catalog file for the new library.

Library Foundation funds totaling \$3,400 were reported available for this purpose.

Frontier Airlines Plans Appeal Of Service Decision

Frontier Airlines, as expected, will appeal the Nebraska Railway Commission decision directing it to resume air service in northern Nebraska within 60 days.

Lincoln attorney Chauncey C. Sheldon, Frontier's local representative, said the company's general counsel in Denver, William A. Nelson, told him there is no change in the original intention of prosecuting the appeal of an adverse decision.

A motion for rehearing in the case will likely be filed this week, he said.

Frontier will not resume service as directed while the appeal is pending, according to Sheldon.

He said the company would follow the theory that the order is held in abeyance while the appeal is being considered.

Goods Made By Inmates Can Not Be Sold To Public

Goods manufactured by inmates at the State Reformatory may not be sold to the general public, Atty. Gen. Clarence Meyer said Tuesday.

In a written opinion to C. V. Keller, Reformatory Superintendent, Meyer said that Nebraska law states that only farm supplies, machinery and equipment produced by the inmates can be sold to the public.

He added, however, that in his opinion the sale of these farm items may also be out of order because the sale is outside any powers specifically conferred on the department of public institutions by the Legislature.

The sale of items other than farm equipment would constitute a misdemeanor, he said.

Meyer added that law provides that "such products shall, so far as possible, be used as supplies for state, county, municipal, school or other public use, and the Reformatory shall collect or be credited with their fair market price."

He said that it is only by conjecture that one might imply that if it were not possible to use the products for government use, they might then be sold to the general public.

"It could just as well be implied that if it were not possible to use the products for the state government uses that they not be used at all," he said.

The opinion was written by Meyer and Asst. Atty. Gen. Mel Kammerlohr.

RFK Pokes Literacy Tests

Washington (AP)—Atty. Gen. Robert F. Kennedy said Tuesday literacy tests keep hundreds of thousands of Negroes from voting in federal elections.

This weakens the cause of freedom and democracy, he told the Senate Constitutional Rights Subcommittee.

Kennedy's testimony opened the last 3 days of subcommittee hearings on the administration's chief civil rights measure—a bill to make a 6th grade education adequate to meet literacy requirements in voting to fill federal offices.

He said that while the legislation applies only to federal elections in his opinion it would not be unconstitutional to extend it to state and local elections also. This would raise new questions, however, and make passage more difficult, he added.

The attorney general, President Kennedy's brother, first read a statement, then in an exchange with Sen. Sam J. Ervin Jr., D-N.C., insisted the measure does not infringe on the constitutional right of states to prescribe voter qualifications.

Ervin is subcommittee chairman and an opponent of the bill.

Kennedy said the government must prevent citizens from being deprived of their voting rights because of race or color. He urged Ervin to support the bill.

"I love the constitution too much to do so," Ervin said.

"I love it too, Mr. Chairman," Kennedy said. "But this does not violate the constitution."

He asked if Ervin was disturbed because many Negroes were being deprived of voting rights.

"It disturbs me," Ervin replied, "but not nearly as much as an effort to nullify the constitution."

The attorney general said the bill does not fix voter qualifications and would not outlaw objective literacy tests that set up a standard applied to all voters alike.

Douglas Co. Submits Top Flood Figure

Douglas County sustained more than one-third of a million dollars damage to public property from recent flooding, a tabulation by Maj. Gen. Lyle Welch, Nebraska adjutant general, disclosed Tuesday.

The Douglas County estimate was \$385,000, making it the hardest hit county on the basis of estimates gathered to date.

Nebraska was required to assemble the figures to support its request for federal disaster relief funds.

Gen. Welch said some additions to the list of damaged counties and cities may be made later.

An unofficial calculation put the total of the damage estimates at \$1,463,808.41.

The county breakdown:

Burt \$59,300; Cumins \$70,000; Dakota \$67,500; Dixon \$225,000; Dodge \$114,110; Douglas \$385,000; Garfield \$2,500; Hayes \$50,000; Knox \$83,564.500; Madison \$49,515; Merrick \$43,940; Nance \$10,000; Pierce \$47,940; Rock \$3,500; Station \$49,678.92; Thurston \$74,000; Wheeler \$8,000.

Others:

City of West Point \$13,000; City of Valley \$25,000; City of Ord \$16,000; state civil defense \$50,000; State Department of Roads \$35,000; City of Lincoln utilities in Saunders County \$6,000.

KLAPAL WINS \$162,119 DAMAGES FROM MOBIL

A Federal District Court jury has awarded George E. Klapal of Lincoln a verdict of \$162,119.83 against Socony Mobil Oil Co. of New York.

Klapal, doing business as Klapal Equipment and Construction Co., recovered on a counterclaim against Socony Mobil for damages in breach of contract and expressed and implied warranties in the purchase of diesel fuel for heavy earth-moving equipment.

Socony was awarded an \$8,384.11 verdict in its suit against Klapal as representing the unpaid balance on the diesel fuel purchase.

Klapal was a subcontractor on a 1958 construction project on U.S. Hwy. 77 in Gage County near Wymore and Blue Springs.

Because of equipment breakdowns and troubles, Klapal alleged, he was unable to complete his subcontract during the 1958 season and the prime contractor turned back the subcontract.

Expert testimony in case was to the effect that mobil diesel fuel sold Klapal was inferior to the No. 1 grade as established by the American Society of Testing Materials.

Other testimony contended that use of diesel fuel of a grade lower than specified by the equipment manufacturer was the cause of equipment breakdown and slowdown on the job.

The jury deliberated 9 hours to return a verdict in the 3-week trial at Lincoln before Federal Judge Robert Van Peit.

Lancaster Grain Plan Sign-Up Exceeds 80%

By GLENN KREUSCHER, Farm Editor

More than 85% of Lancaster County's farms have been enrolled in the 1962 Feed Grains Program, exceeding last year's figures according to Agricultural Stabilization and Conservation Service officials.

The report was made Tuesday at a Lancaster County agricultural official's luncheon which included a review

Mo. Basin Power Pact OK Reported

Washington (AP) — The Interior Department was reported Tuesday to have agreed upon the feasibility of a seasonal interchange of power with 14 utilities in the Missouri River Basin.

Lynn A. Monrow, representing the Omaha Public Power District, said in reporting this to the Nebraska congressional delegation:

"I think we are getting along pretty well and making progress. Feasibility has been agreed upon."

Monroe said department representatives raised 25 questions about the utilities' proposal. He said the answers would be submitted within the next few weeks.

"These were mostly technical questions," Monroe said, adding that agreement on the feasibility question represented clearance of a big hurdle.

After these answers are submitted to the department and studied there, Monroe said, it remains for a decision to be made on the question.

He said other avenues include a proposal from basin electric power cooperative, an organization of upper Midwest generation and transmission cooperatives, to sell or exchange power with the department in the basin area.

Under the utilities' proposal the power supplies, including the Omaha Public Power District, would make energy available during the non-navigational season on the river and in low-water periods so the government could supply its customers with an additional 650,000 kilowatts of year-round firm power.

In turn the government would return to the companies the excess energy from its hydroelectric plants during the navigation season or at other times when the flowage is adequate.

22 High Schools Will Participate In 'College Days'

High school seniors from 22 Nebraska schools have been invited to attend a "College Days" program at the University of Nebraska on Saturday.

College Days gives the students the opportunity to attend some college lectures and to meet with faculty representatives of the college of their choice. They also tour the university campus and talk with college students.

Schools attending will be Palmyra, Syracuse, Waverly, Crete, Ashland, Seward, Valparaiso, Louisville, Weeping Water, Adams, Eagle, Dorchester, Milford, Friend, Ceresco, Tecumseh, North Bend, Albion, Fairbury, South Sioux City, Wahoo and Schuyler.

Contract Is Let For 3 Spans At Sprague, Denton

Capital Bridge Co. of Lincoln was awarded a \$29,400 contract Tuesday by the Lancaster County Board to construct 3 new bridges in the Sprague and Denton areas.

Each of the steel and concrete bridges will have a 40-foot span and will replace 3 wooden bridges.

Srb Wants Legal Loophole Closed

The legislature should close a legal loophole by allowing a trial to be switched to another county when not enough persons can be found to serve on a jury in the county where the crime was committed, according to Legislative Clerk Hugo Srb.

He made the suggestion after hearing of a Tennessee murder case where charges against two men were dismissed when only two jurors could be found.

The same thing could happen in Nebraska, Srb pointed out.

Nebraska law states a person must be tried in the county where the crime is committed.

Pike Promoted

London (AP) — Air Chief Marshal Sir Thomas Pike, chief of the Air Staff since Jan. 1, 1960, was promoted to the rank of marshal of the Royal Air Force.

His promotion was announced in the London Gazette, the government's official journal. He leaves Wednesday for North America and tour of Royal Air Force commands overseas.

Why Grow Old?
One Sees The Funniest Things
Josephine Lowman

Will you have the spirit to strum the banjo and keep the neighbors awake when you're 84?

Sometimes one sees the funniest things in newspapers. Don't get me wrong! I love newspapers and I have found newspaper people to be tops. No doubt you

have read things in my column which sounded as strange as the following. "Dress up your pancakes." I have enough trouble with pancakes as it is. I don't want to dress them up. I

Install State B,PW Officers

The 44th annual convention of the Nebraska Federation of Business and Professional Women's Clubs was concluded Sunday at North Platte with an Emblem Breakfast, presentation of awards and citations, and installation of new officers.
Seated (from the left) are Miss Sally Cunningham, McCook, state parliamentarian and past state president; Mrs. Fran Johnson, Grand Island, second vice president Mrs. Evelyn Rankin, North Platte, president; Miss Hanna Schmidt, Fremont, state delegate to national B, PW convention; and Miss Lucille Stutheit, Scottsbluff, first vice president.
Standing (left to right) are Mrs. Helen Harring, McCook, outgoing secretary; Mrs. Geraldine Wing, North Platte, outgoing corresponding secretary; Mrs. Helen Kokes, Ord, state counselor and national convention delegate; and Mrs. Ruby Mahaffie, Holdrege, treasurer.
New officers not pictured are Miss Mercedes Tevebaugh, Lincoln, third vice president and Miss Marie Janecek, North Platte, recording secretary. Other state delegates who will attend the national federation convention at Los Angeles, July 16, are Miss Stutheit, Mrs. H. C. Hanna, Superior, and Miss Majorie Eisenhart, McCook.

We Hear That

Mr. and Mrs. Major A. Roblyer have as their guests this week their sons, Elmer Roblyer and Raymond Roblyer, and their grandson, Jimmy Roblyer, all of Eugene, Ore. The visitors came to attend the 50th wedding anniversary celebration of their host and hostess on Sunday, April 15.

To Head State DAC

MRS. ALBERT T. DE CARION

New officers of the Nebraska Society, Daughters of American Colonists, will be confirmed officially on Thursday at the General Assembly of the Society in Washington, D.C.

Elected at the state society's annual conference in Omaha, March 10, were Mrs. Albert T. De Carion of Omaha, state regent; Mrs. Einar Viren, Omaha, first vice regent; Mrs. Levi Gay, Lincoln, second vice regent; Mrs. Richard L. Baker, Omaha,

chaplain; Mrs. Dale R. Philpot, Plattsmouth, recording secretary; Mrs. Joseph Bolan, Jr., Lincoln, corresponding secretary; Mrs. Harvey H. Bryan, Omaha, treasurer; Mrs. John L. Barton, Omaha, registrar; and Mrs. C. E. R. Edmond, Lincoln, historian.

Appointed parliamentarian was Mrs. H. L. Blackledge of Kearney, and named auditor was Miss Jeanette McDonald of North Platte.

The new officers were installed by Mrs. John W. Roberts of Bellevue, past state regent.

On Exhibit

The members of the Lincoln YWCA painting class will hold an exhibit of their work this week at the YW. The display will be open from 8 o'clock in the morning to 8 o'clock in the evening, Wednesday through Saturday, in the first floor lounge.

Dear Abby

Go Ahead—Insult Him

Abigail Van Buren

DEAR ABBY: I live in an apartment building where people are very friendly. It's the kind of place where they just walk in if your door isn't locked and nobody thinks a thing of it. There is a man living here who works a different shift from his wife. He seems to have a lot

of time on his hands and likes to visit with me. (I am married, and don't work out.) This man loves to tell me about his "personal affairs" with other women. I can't figure out whether he is asking me for advice or what. I know his wife and like her. I would rather not

hear all this stuff. How can I cut him off without insulting him?

STUMPED BUT GOOD
DEAR STUMPED: Go ahead and insult him! Tell him you are not interested in his private affairs, don't approve of his behavior, and do not want to hear about it. Men who behave this way usually have plans for their listeners. And lock your door!

DEAR ABBY: I am writing to you about a dear friend of mine. She was married at 18, has been married for three years and has had three babies already. Her husband says he would love to have a baby every year but, Abby, how long can she keep that up? She is a lovely girl, but she has no help with her house or the babies and it is making an old woman out of her before her time. What should she do? This is between you and me.

DEAR FRIEND: You are mistaken. It is between your friend and her husband.

DEAR ABBY: I happen to be married to an extremely handsome man who is 12 years younger than I. From time to time I get anonymous phone calls from women who call to tell me that my husband is seeing someone else. There is never anything to it, because I have had him followed. How can I discourage these anonymous telephone callers?

TIRED OF IT
DEAR TIRED: Say, "If you cannot give me your father's name, please give me your mother's."

The bidding:
East South West North
Pass 1NT Pass 3NT

Opening lead — six of spades.

It is perfectly normal for anyone who reads books on bridge to follow the advice contained in those books.

Presumably, the author must be credited with knowing what he is talking about, and the principles he enunciates should be generally followed. However, the trouble is that the general principles set forth in these books are often taken too literally. The player should learn to govern the rule and not permit it to govern him.

For example, take the proposition that when you have nine cards of a suit and are missing the Q-x-x-x, it is better to cash the ace and king and hope to catch the queen than it is to finesse against the queen. This is a sound enough principle to follow in most hands, but the declarer should not close his eyes to the possibility of finessing when the circumstances call for it.

In this hand, for instance, where West leads a spade and dummy's jack wins, South should certainly not follow the general rule in dealing with the club suit.

Suburbia Greets Newcomers NFWC Honors Junior Members

The month of April, with all its showers, seems to be slipping swiftly away and before we begin all the news of Easter guests and vacations, we really must bring you up to date on events in suburbia.

COTNER TERRACE

On the Cotner Terrace birthday list last week was James Plucknett, son of Mr. and Mrs. Albert J. Plucknett, who celebrated his fourth birthday Monday, April 2, at an afternoon party dominated by the circus theme.

On hand for the afternoon's festivities at the

Plucknett home were Kathy Gotchall, Steve and Kevin Dornbach, Johnny Deeds, Monty and Allan Rudman, Tommy Frye, Sharon Koch, Timmy and Karen Shipper, Geraldine Mehuron, Andrea, Vicki, and Cindi Anderson, and James' sister, Mar-chelle.

Leaving Lincoln yesterday were Mr. and Mrs. Rex R. Winders who are traveling to Denver, Colo., to be the houseguests of their son and daughter-in-law, Mr. and Mrs. Rodney Wight for five days. Incidentally, Mr. Winders will participate in the Elks Bowling Tournament in Denver.

Mr. and Mrs. Winders also plan to visit Mr. Winder's son and daughter-in-law, Mr. and Mrs. George Winders in Casper, Wyo. They will return to Lincoln on Tuesday, April 24.

And in the moving department in Cotner Terrace we find several newcomers this morning. First on the list are Mr. and Mrs. Robert E. Rice and their daughter, Michelle, who is a junior at Northeast High School. The Rice family moved to Lincoln from Omaha the last of March. Their new address is now 3544 No. 68th.

The new neighbors at 6610 Benton are Mr. and Mrs. Richard Newell and their 21

year-old daughter, Miss Clovis Newell. The Newells, who formerly resided at 6721 Ballard, moved to their Cotner Terrace address last Saturday.

Moving to 6941 Benton on Saturday, March 31, were Mr. and Mrs. Joe Koranda, who formerly resided at 5111 Knox. Mr. and Mrs. Koranda have two daughters, Pamela, who is ten, and Kathy, who is seven.

Although not newcomers to Cotner Terrace, Mr. and Mrs. Don M. Hubbard do have a new address within the suburb — 6929 Adams. The Hubbards, who formerly resided at 6401 Benton, moved on April 1.

And in the news of the Hubbard household, we also learned that Mr. and Mrs. Hubbard are planning a trip to Beatrice this week end. Leaving Lincoln on Friday, they will be the houseguests of Mr. Hubbard's brother-in-law and sister, Mr. and Mrs. John Traubel. While in Beatrice they will also visit with Mr. Hubbard's brothers and sisters-in-law, Mr. and Mrs. Raymond Hubbard and Mr. and Mrs. Glenn Hubbard. They plan to return to Lincoln on Monday.

NORTHEAST HEIGHTS

Learned that Mrs. Al Daniels, Jr., was hostess at her home on Tuesday, April 3, at a small informal coffee. Included among the guests were Mrs. Glenn Alexander, Mrs. Donald Kuhle, and Mrs. Earl Daarud.

Still in the news from the Daniels' home, we learned that a friend of Mr. Daniels, Gerald H. Anderson, of Spearfish, S.D., was their houseguest last week. Mr. Anderson arrived in Lincoln on Saturday, March 29, and returned home to South Dakota on Wednesday, April 4.

Junior club members of the Nebraska Federation of Women's Clubs were recognized at the Tuesday evening banquet of the organization's convention, being held at Omaha at the Sheraton-Fontenelle.

A highlight of the evening was the presentation of the winners of the Vogue-Federation sponsored sewing contest, and program speaker was Rene Martinez of La Paz, Bolivia, student at the University of Nebraska.

Pictured are (from left) Mrs. Duane Koso of Mitchell, Mrs. William H. Hasebrook of West Point and Miss Karen Toebben of Blair. Mrs. Koso and Miss Toebben are

the Vogue sewing contest winners.

Tuesday's program included workshop sessions, and addresses on, "Educating the Handicapped Child", by Dr. M. S. Hiskey of the University of Nebraska; and "Equality Before The Law", by Mrs. Louise Bushnell of New York City, women's division director of the National Association of Manufacturers.

The convention will close today with the presentation of annual awards and the installation of new officers.

Summer Bride-Elect

MISS STELLA ELISA GRAELL

Mr. and Mrs. Pedro Saenz Graell of Panama City, Panama, are announcing the betrothal of their daughter, Stella Elisa, to James D. Nutter, son of Mrs. Florence Nutter of Windham, Ohio.

The wedding will take place on Aug. 18, in Panama City.

The bride-elect is a graduate of the University of Ne-

braska, where she is studying for a Masters degree. A graduate of Kent State University, Kent, Ohio, Mr. Nutter received his Masters degree at the University of Nebraska, where he currently is studying for a Ph. D degree in chemistry. He is a member of Phi Lambda Upsilon and Sigma Xi honor societies.

Join "Grandparents Club"

Brand new members of the Grandparents Club are Mr. and Mrs. Glenn Yaussi whose grandson, Mark Allen Mueller, arrived on Saturday, April 7.

The baby is the son of Mr. and Mrs. Robert Mueller of St. Charles, Mo., and his mother is the former Judie Yaussi, Mr. and Mrs. Her-

man Mueller of St. Charles, Mo., are the paternal grandparents.

Mrs. Yaussi is leaving today for St. Charles to extend her personal greetings to the new arrival, and for a visit with her son-in-law and daughter. She will be joined later by Mr. Yaussi who will accompany her home.

PTA Unit Installs Officers

The spring meeting of Millard Lefler PTA was held Tuesday evening at the school. Newly-elected officers of the unit were installed, after which the group presented PTA Life Memberships for outstanding service to the organization.

New officers of the unit,

and those honored with Life Memberships, include (from left in foreground) Life Members Mrs. Paul Bugott, Mrs. Louis McBride and Stan Hawley, and (seated in back, from left) Mr. and Mrs. Glen Stain, co-presidents, Dr. and Mrs. Earl Lamphire, co-secretaries,

Mrs. W. C. Robison, co-vice president, Mrs. L. John Cooper, console delegate, and (standing, left to right) Mrs. Jack Hart, co-treasurer and Mrs. M. F. Huber, console delegate.

To Be Luncheon Hostess

Mrs. Milton L. Flack, 3864 Orchard, will be hostess to the members of Hannah Duston Chapter, Daughters of American Colonists, at a 1 o'clock dessert luncheon on

Saturday. Miss Ruth Callender, regent, will preside at the meeting, and assisting hostess will be Mrs. R. B. McCandless.

VERMONT HIT BY TREMORS

Montpelier, Vt. (AP)—Earth tremors, described by a seismologist as a "strong local earthquake," shook buildings in central Vermont Tuesday. They were felt in lesser degree in parts of New Hampshire and New York state.

The Rev. Francis Donohoe, S. J., of the Boston College seismographic station, Weston, Mass., said the quake was recorded at 9:31:21 a.m. and lasted only a few seconds. The tremors were

Foreign Markets Key To Ag Growth Says Morrison

Gov. Frank Morrison said Tuesday he is convinced that Nebraska is never going to achieve full development of its agricultural economy without tremendously increasing the flow of its goods to foreign markets.

The governor made the comment when informed that Nebraska Stockgrowers Association President Chet Paxton of Thedford had criticized Morrison's endorsement of President Kennedy's Free Trade Program.

Paxton had said the proposed freer trade with European markets was not in the best interests of Nebraska cattlemen.

Morrison said he had not heard about the criticism from Paxton, "a man for whom I have tremendous respect," but said he assumed that Paxton thinks too much meat is being imported to the U.S.

"That's happening right now under the present program," Morrison said, but he indicated he believes a better balance would be achieved under the proposed program.

Man Given 5 Years In '36 Up For Parole

The final penal chapter in the unusual case of John Bryl may come to a close when the State Board of Pardons and Paroles meets at the Penitentiary here Wednesday May 9.

Bryl, now 50, was sentenced to 5 years by a Douglas County District Court on Feb. 2, 1936 for an Omaha robbery. But Bryl escaped Sept. 25, 1937 and wasn't returned until Oct. 8, 1960.

In the interim, he served prison sentences in Iowa and Michigan, twice escaping from confinement in Iowa.

Last month the board commuted his robbery sentence. Now Bryl is serving the one

Ban On Youths Visiting Hospitals To Get Hearing

A hearing on the plan to withhold hospital visiting rights from youngsters 14 and under will be held some time in late May or early June, according to State Hospital Division Director Verne A. Pangborn.

Pangborn said he is trying to schedule it in conjunction with a hearing on the state's hospital construction program for the coming fiscal year.

The State Board of Health approved the change in visiting privileges, but a public hearing must be held before the new regulations can go into effect.

All hospitals licensed by the state would be affected. Only federal hospitals would be excluded from the order.

year he got for the escape.

If the board commutes this one, it will square Bryl with Nebraska for the first time in 26 years.

In all, 11 penitentiary cases will be considered. The next day the board is slated to hear 10 more parole pleas at the Mens Reformatory.

Penitentiary cases including name, age, home, crime, county where convicted, term and date of sentencing:

Edw. J. Starr; 21; Pine Ridge, S.D.; breaking and entering; Box Butte; two to 3 years; April 7, 1960.

Homer Chapman; 31; Wellsville, Kan.; possession of firearms; Cheyenne; 5 years; May 25, 1960.

John M. Williamson; 27; none; issuing forged instrument; Dawes; two to 5 years; April 18, 1960.

James C. Taylor; 42; Hominy, Okla.; second degree murder; Douglas; life (commuted to 35 years); Aug. 12, 1946.

Dennis E. Watson; 27; Omaha; robbery; Douglas; 9 years; March 25, 1958.

Ronald J. Jordan; 23; Omaha; escape from prison; Lancaster; one year; Feb. 17, 1959.

John Bryl; 50; Omaha; escape from prison; Lancaster; one year; Nov. 10, 1960.

George Carmack Jr.; 23; Crossville, Tenn.; breaking and entering; Nuckolls; one and a half to 3 years; Nov. 15, 1960.

Jesse R. Shrum; 21; Durant, Okla.; breaking and entering; Nuckolls; one and a half to 3 years; Nov. 15, 1960.

Carl D. McLaughlin; 20; Durant, Okla.; breaking and entering; Nuckolls; one and a half to 3 years; Nov. 15, 1960.

Johnson Wolfe; 35; Macy; breaking and entering; Thurston; 3 to 5 years; March 2, 1960.

Reformatory Cases

Paige O. Anderson; 42; Hastings; motor vehicle homicide; Adams; 4 years; April 26, 1961.

Ronald G. Timm; 19; O'Neill; burglary; Boyd; one to two years; May 11, 1961.

Thomas L. Remmenga; 26; Grand Island; insufficient fund check and violation of bench parole; Buffalo; two to 3 years; March 17, 1961.

Donald D. Warren; 26; Omaha; issuing forged instrument; Douglas; one to two years; June 22, 1961.

Fred J. Fahrenbrück; 24; none; insufficient fund check to defraud; Lancaster; one to 3 years; Feb. 27, 1961.

Russell G. Luter; 21; Hickman, Ky.; breaking and entering; Lincoln; two to 3 years; Dec. 2, 1960.

Ronald A. Perkins; 23; North Platte; larceny as bailor conspiracy; Lincoln; one to 3 years; May 25, 1961.

Patrick Wamsley; 23; North Platte; debauching a minor; Lincoln; two years; May 31, 1961.

John D. Mesteth; 20; Ogalala, S.D.; auto theft and violation of bench parole; Sheridan; one to 4 years; March 10, 1961.

Henry J. Nelson; 22; Walthill; breaking and entering to steal; concurrent counts in Thurston and Cummins; one and a half to 3 and 3 to 5; March 2, 1960 and March 22, 1960.

O'Shea-Rogers Spring Salon Continues...

SALE ENDS APRIL 21

Wheel 'n deal— Ford prices cut; down to \$1,845

Lincoln-Land's biggest automotive selling event continues through Saturday, April 21, at O'SHEA-ROGERS where the 42nd annual Spring Sale Salon is in process. New low prices have been set on the entire Ford line of 1962 models. The main showroom at 14th and M and the big lot at 225 North 48th street have a wide selection of latest Fords.

According to President E. M. O'Shea, prices are lowest yet "on the greatest Fords ever."

"To show we're wheelin' and dealin' the '62 Ford models", Mr. O'Shea said, "we're starting the Falcon at \$1,845, the Fairlane at \$1,995, and the Galaxie as low as \$2,165."

In addition, Mr. O'Shea advised that O'SHEA-ROGERS offers highest trade-in allowance on a present car and low-rate financing for the '62 model. A buyer's present car need not be paid for and it can even be the down payment on a new Ford.

Because of the great interest in the new Fords, O'SHEA-ROGERS is keeping its display doors open each evening until nine to accommodate family shopping.

Used cars, low prices, 2 big lots

With the advent of O'SHEA-ROGERS 42nd annual Spring Sale Salon, April 2-21, and the attendant low prices on new 1962 Fords, it was only natural that prices of used cars at both Lincoln's Ford Center lots should come crashing down to all time lows.

If you're in the market for a top notch used car, check these prices. They're representative of what you'll find at O'SHEA-ROGERS, Lincoln's Ford Center, with used car lots at 14th and M and 225 North 48th.

Four Famous Facts On Ford Financing

Four famous financing facts add up to further proof that O'SHEA-ROGERS "can sell for less because it costs us less to sell." These facts are:

- 1) O'SHEA-ROGERS offers you low-cost, one-stop financing.
- 2) Buy your new Ford NOW without changing your present budget plan. Your payments will probably be no higher than on your present car. Your present car need not be paid for and it may even be
- 3) O'Shea - Rogers sees that your new Ford has the proper insurance coverage in addition to low-cost financing.
- 4) Your first payment will not be due until June First if you buy a new O'Shea - Rogers Ford during the SPRING SALE SALON.

the down payment on your new Ford.

"Lively Ones" for '62 belong to Ford

Throughout the entire Ford line for 1962, the Ford family is in a lively mood. Wherever the lively life leads you, there's a lively Ford to help you arrive in style.

The "Lively Ones" for '62 are from Ford. As distinctive and varied as these fabulous Fords are they do have this in com-

mon... they're all built to stay lively for a long time to come. Thanks to new space-age quality control techniques, their durability and reliability surpass even the finest Fords of the past.

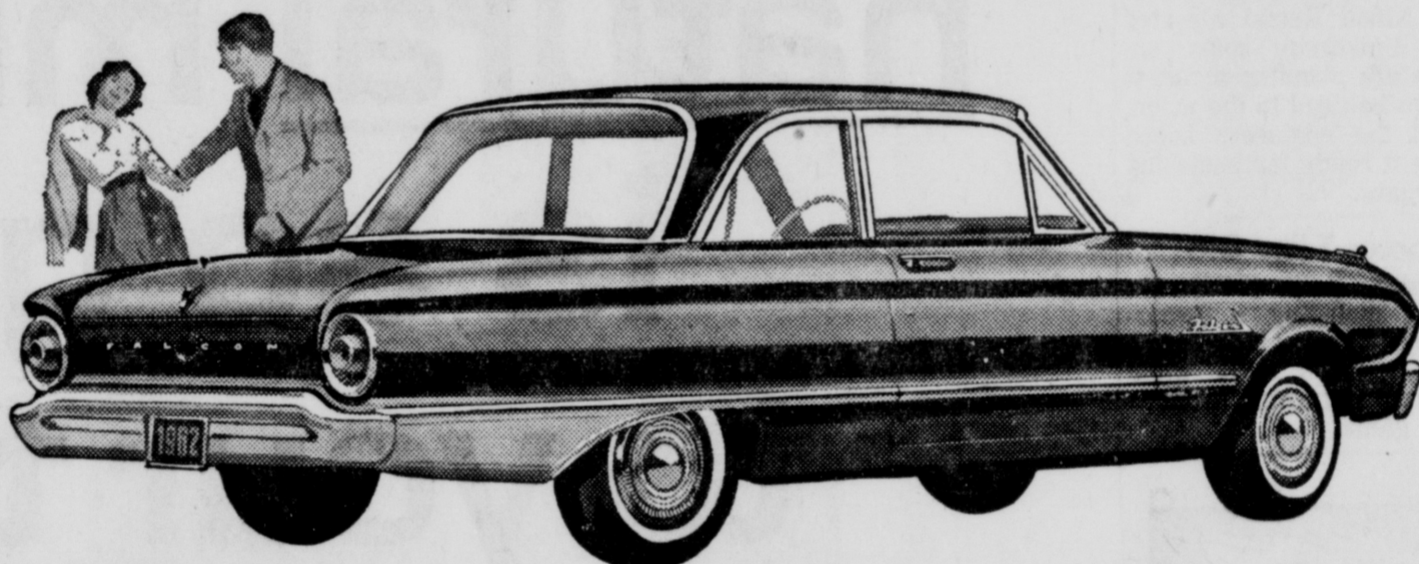

See the "Lively Ones" now at O'SHEA-ROGERS, during the great 42nd an-

nual SPRING SALE SALON, continuing through Saturday, April 21.

There's a Ford for every family, a price for every pocketbook. On display are the new Fairlane, Fairlane 500, Galaxie 500, Falcon, and Thunderbird.

NOW THERE ARE FOUR CLASSES OF CARS

And only Ford offers all four! Each is represented by a separate and distinct line of cars, and one (the Fairlane) is in the new class not offered by any other manufacturer. Look below for the new car that exactly fits your needs.

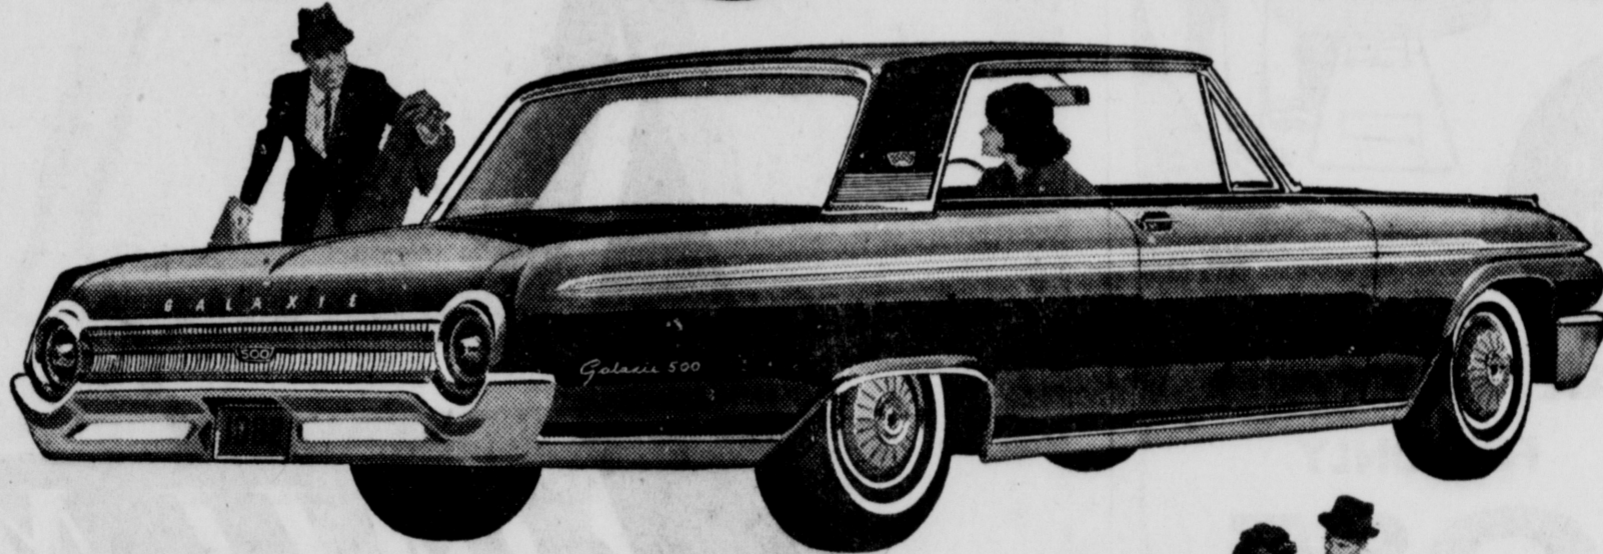

COMPACT CLASS:

This class includes cars with 106 to 114-inch wheelbase. Most popular by far (a million happy owners!) is the Ford Falcon. Falcon is America's lowest-priced* 6-passenger car, set a 25-year record for Sixes or Eights in last spring's Mobilgas Economy Run, gives you a choice of 13 models, including the Futura and new Falcon Squire wagon.

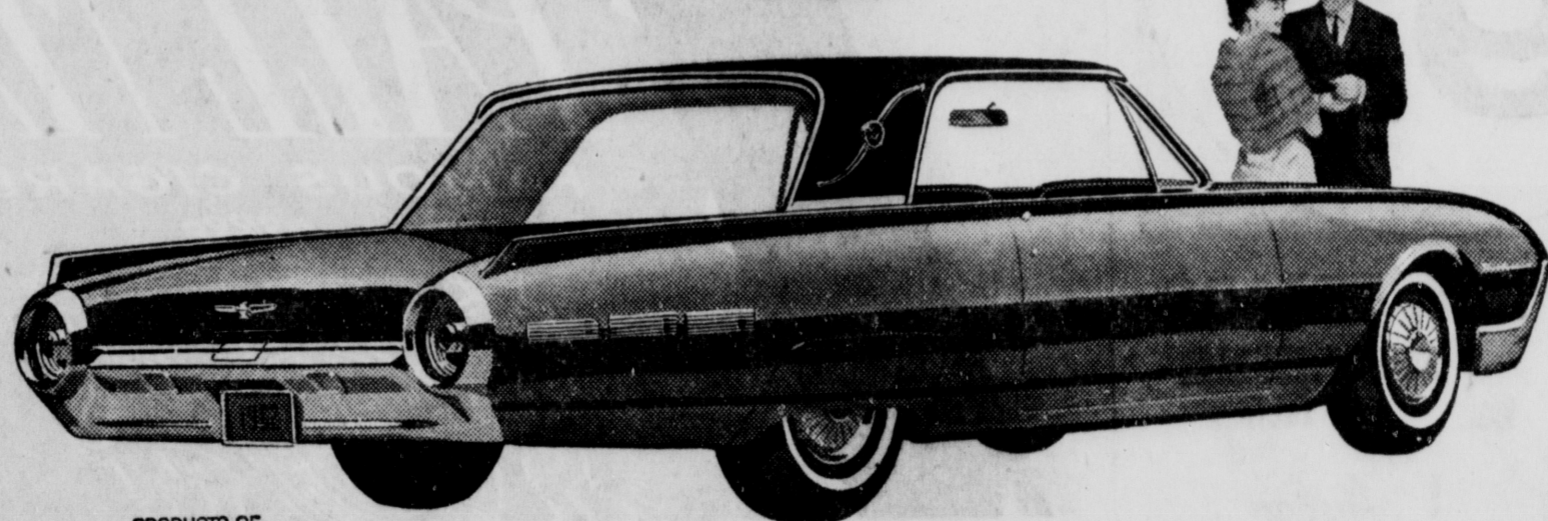

FAIRLANE CLASS:

The 1962 Ford Fairlane is the first member of a new class which combines the advantages of both compacts and big cars... you get big car room, ride and performance... compact savings and maneuverability. Priced below many compacts, Fairlane even rivals some in gas economy. Has twice-a-year maintenance introduced by the Galaxie. Available with thrifty Fairlane Six or world's first economy V-8 (optional).

FULL-SIZE CLASS:

The class for families who want big car comfort, performance and prestige. Value leader is the Ford Galaxie—which has every essential feature of far costlier fine cars. With the optional Thunderbird 390 V-8 engine, a Galaxie will outperform America's most expensive luxury cars. Requires servicing only twice a year, or every 6,000 miles.

LUXURY CLASS:

The top class—cars for people who want the very finest. First of the trim-size luxury cars, the 4-passenger Thunderbird is the most distinctive car in this class. Its styling set the trend for an entire generation of cars and now finds a new elegance in the Landau (left). And Thunderbird's performance is just this side of flight.

POSTCARD by Stan Klapalane

A rainy morning in the mews house on Hasker street, London, S.W. 3.

"There's a dreadful morning," said the lady who comes to "char." You must have a char, a cleaning woman. My lady comes out of the bitter morning into my warm mews house (I keep it at 65 degrees) and fans herself. It is that warm to the English blood.

When I say I keep it at 65 degrees I mean I keep this room at 65. Step into my parlor and you are OK. Step into my hallway and wear earmuffs.

"Do the English keep their houses too cold?" was the subject of a TV debate last night. They did not let me on this program or I would have told them a thing or two.

The way I keep my mews house with a warm-up hut in the parlor is a caution.

As of the cold, cold morn-

ing, I rise shivering and turn on an electric heater and bolt the bedroom door.

The heater does a languorous battle with the freeze—it doesn't do very well because half the coils are out. Nobody figured you should want a whole coil anyway.

When this room gets to the point where you cannot see your breath frost in the air, I leap through the icy hallway. Switching on a heater in the bathroom. Downstairs into the kitchen.

The kitchen is in the basement—that is the way three-story mews houses are built. Long and thin like a New York brownstone.

I bolt this door against outside cold and turn on the oven.

You should now stoke up the coke fire. This entertaining gadget sits in a corner. Like a little old-fashioned coal stove they used to have in general stores in the Midwest.

You pour coke—a nut-size light coal sort of thing—into this. You light a small rod of gas burners. You thrust this

into the bottom—it makes a dull bang. From residue gas, I suppose. You seize a crank and crank down the ashes.

It is exhausting. But it does warm you up.

You then race through the ice-cold hallway into the parlor—reception room, they call it here. You could lay out the late departed in this room. It is cool as any morgue.

You throw coal on the grate. Light it with another gas rod. You should retire to bed until things pick up.

This gives a certain glow to the morning. Particularly if you have forgotten to fill the coal scuttle the night before. The coal bin lies outside in the freezing out-of-doors, Claude. And it doesn't walk in. You go get it.

By nighttime, your mews house should be cheery as a love in a cottage. Warm as a maiden's blush.

Not so, not so, alas. The lady who cleans left the window open in the bedroom. The coke fire in the boiler has gone out for a short beer. The hallway is Arctic. And the sheets are like iiiicccccc.

The warm-blooded English have foreseen this. They put a hot water bottle in the blooming bed. Sometimes these are made of stone. And Claude, if you hit one of these without being forewarned, it will blister your tootsies off.

I am forewarned. But have not handled hot water bottles since grandma put them on the pillow for earaches.

Mine leaked all night. Fortunately, it leaked hot water—to begin with.

By morning you can't tell the difference anyway.

CARMICHAEL

THAT WAS A MEAL FIT FOR A KING—ACCORDING TO THE CHECK—

Frank Takes Gun Re-elected To Church Post; Backs Peyote

Holbrook, Ariz. (UPI) — Frank Takes Gun, who has made a life's work of winning legal sanction for the eating of peyote, has been re-elected to another 6 years as president of the Native American Church.

About 300 Indians re-elected Gun, of Albuquerque, N.M., at a day-long meeting here conducted entirely in Navajo.

Deputy Marlin Gillespie said. Gun is a Crow Indian whose family lives in Hardin, Mont. The vote was, in effect, a vote of confidence in his work in the courts systems, state legislatures and Congress in behalf of the peyote-eating rite.

Gun says 68 tribes are represented in his church. He has appeared at Santa Fe, N.M. several times to lobby for legislation legalizing the eating of the small cactus bud and its derivatives as part of ancient religious ceremonies still observed by some Indian groups.

Gun has fought on many fronts for preserving the rite,

which produces exotic, otherworldly effects including color hallucinations.

Peyote derivatives were once classed with narcotics for purposes of importation and it was illegal for them to be brought into the United States from Mexico, the main supplier. Gun won an exception.

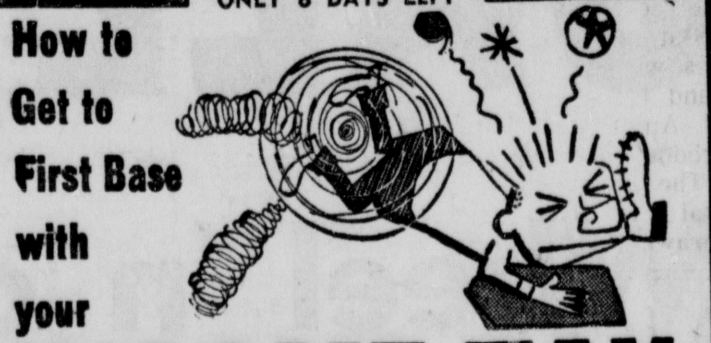

But by this time, several state legislatures, including New Mexico, had followed the federal lead. Gun then traveled from state capitol to capitol, in most cases winning a relaxation of the bans on peyote traffic.

Gun's biggest hurdle has proved to be Indian govern-

ments themselves. The Navajo tribe, Gun asserts, imposed penalties up to 9 months in jail and a \$100 fine for using peyote.

Gun attacked the Navajo tribe in the U.S. courts and through the Interior Department by means of a test case involving 7 Arizona Navajos and New Mexico Navajos James and Della Oliver of near Farmington and Ambrose Lee of Gallup, N.M.

The United States Court of Appeals took the case under advisement in January.

Lincolnites Tour Plant Making Mighty Atlas

By DON BRYANT
Star Staff Writer

San Diego, Calif.—Mighty Atlas missiles will soon be taken for granted as part of the scenery around Lincoln.

But not by the 23 Lincolnites who Tuesday saw firsthand the awesome spectacle of American ingenuity and production at work.

The group toured the General Dynamics-Astronautics sprawling and immaculate

A Lad Of 9 Makes Leap To Safety

... On W. Berlin Side

Berlin (AP) — A 9-year-old East German boy made a daring leap from the roof of a 5-story building to safety in West Berlin Tuesday. But a young companion lost his nerve at the last minute and was seized by East German police.

Plummeting down 60 feet into a fire brigade's safety net, the boy was taken to hospital for treatment for shock and bruises.

West Berlin authorities said he will be placed in a children's home until it is decided what will be done with him. Children of such tender age generally are returned to their parents in the east.

The boy made his spectacular leap in the Bernauer Strasse, where the houses on one side are in Communist East Berlin while the sidewalk is in Western territory.

The street has been the scene of many escapes. The boy jumped at almost the exact spot where an East German student was killed last November when he missed the rescue net and crashed to the sidewalk.

Gothenburg Votes For Bond Issue

Gothenburg (AP) — The city of Gothenburg voted 673 to 375 for a \$374,000 community building bond issue Tuesday.

The voting was in two sections — the city and the school district outside the city. The school votes will be counted Wednesday morning.

The city vote was 64.2% for the issue. A final 60% majority is needed.

The building, an auditorium-gymnasium affair, would be used by both the city and the schools.

Infant Is Victim Of Strangulation

Fairbury — Two-month-old David Beldin, son of Mr. and Mrs. Robert Beldin of Fairbury, formerly of Lincoln, was accidentally strangled.

The infant was found dead in a portable car bed, apparently catching his head over its side.

Beldin is a Fairbury High School teacher and Jefferson County Civil Defense director. The Beldins have 4 other children.

Blair Bridge Tolls May Be Lifted Soon

Tolls may be lifted from the Missouri River bridge linking Iowa and Nebraska at Blair late this summer, and a surge in traffic at the crossing can be expected when that happens, State Engineer John Hossack said.

Information supplied to Iowa and Nebraska by the Blair Bridge Corp. indicates the owners will be ready to turn the bridge over to the two states sometime "the latter part of the summer."

Hossack had checked the timetable at the request of Gov. Frank Morrison, who said the attainment of toll free status on the span will be "an important milestone for the state."

When the tolls are lifted, the Blair bridge will become the 6th free bridge across the Missouri River. The bridge linking Blair and Missouri Valley, Iowa, is on U.S. 30.

Already free of tolls are crossings at Yankton, S.D., and Sioux City, Iowa; the Ak-Sar-Ben and South Omaha bridges in Omaha, and the span at Nebraska City.

Still collecting tolls are bridges at Decatur, North Omaha Mormon Bridge, Bellevue, Plattsmouth, Brownville and Rulo.

THE FAMILY CIRCUS

by Bil Keane

DID YOU KNOW THIS? IT'S A FACT:

Conquina limestone is named for the shellfish embedded in it.

The 36 columns in the Lincoln Memorial in Washington, D.C., represent the states in the Union at the time of Lincoln's death.

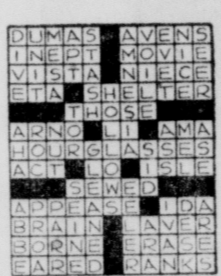

Snowslides approach the energy of tornadoes, earthquakes and floods.

One rule of thumb on saving is to keep a reserve fund equal to three times the family monthly income.

An English proverb says, "Too many cooks spoil the broth." A Chinese proverb, "Too many bricklayers build a lopsided house."

Here is a practical little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add three. The result is your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers left to right. Then read the message the letters under the checked figures gives you. Cimoli Homer Gives Athletics 4-2 Win

... RALLY DROPS TWINS

Kansas City (AP)—Gino Cimoli clouted a 3-run homer Tuesday that gave the Kansas City Athletics and pitcher Ed Rakow an opening day victory over the Minnesota Twins 4-2 before 21,012 chilled fans.

SE Tops Uni High

Lincoln Southeast's city track champions had little trouble in a dual meet at the SE track Friday afternoon as they rolled past University High, 91-33.

The Knights swept the top spots in the field events and allowed the Tutors only 4 firsts on the track.

Mild temperatures and little wind produced some good and some mediocre marks.

Dave Gates of Southeast cleared the high jump bar at 6-1 1/2 for the top mark in the state this spring. Bob Pollard of Ashland was the previous leader at 6-1.

The Knights' winning 2-mile relay time of 8:54.6 places them 8th in this week's state standings.

TRACK EVENTS
100 Yards—1. Tip Davis, SE, 17.2; 2. Dennis Hudson, SE, 17.2; 3. Ken Clark, SE, 17.2.
200—1. Joe Carroll, SE, 35.2; 2. Bill Beams, SE, 35.2; 3. Ed Black, SE, 35.2.
400—1. Loren Burnett, U, 1:09.4; 2. John Kohl, SE, 1:09.4; 3. John Higgins, SE, 1:09.4.
800—1. Jerry Butcher, U, 2:09.4; 2. Bob Hawley, SE, 2:09.4; 3. Mike Jeffrey, SE, 2:09.4.
1,600—1. Hudson, SE, 4:18.8; 2. Scott Fredrick, SE, 4:18.8; 3. Black, SE, 4:18.8.
3,200—1. Kent Radke, U, 8:20.0; 2. Rich Johnson, U, 8:20.0; 3. Jerry Butcher, U, 8:20.0.
6,400—1. Beams, SE, 16:40.0; 2. Larry Jones, U, 16:40.0; 3. Wayne Goodman, SE, 16:40.0.
12,800—1. Ray Hays, SE, 33:20.0; 2. Jim Schultz, SE, 33:20.0; 3. Fred Hays, SE, 33:20.0.
25,600—1. Mike Jeffrey, SE, 66:40.0; 2. Jim Butcher, SE, 66:40.0; 3. Mike Jeffrey, SE, 66:40.0.
51,200—1. Southeast (Frank Schultz, Fred Hays, Larry Jones, Jim Schultz), 133:20.0; 2. University (Jim Butcher, Mike Hansen, Jerry Butcher), 133:20.0.
102,400—1. Southeast (Beams, Fredrick, Bill Roberts, Hudson), 271:40.0; 2. University (Hudson, Clark, Carroll, Beams, Jones, Burnett, Kohl, Higgins, Butcher, Hawley, Jeffrey, Fredrick, Johnson, Goodman, Hays, Schultz, Jeffrey, Butcher, Hansen, Butcher), 271:40.0.
204,800—1. Bill Roberts, SE, 544:00.0; 2. Russ Thompson, U, 544:00.0; 3. Russ Thompson, U, 544:00.0.
409,600—1. Bruce Wright, SE, 1,088:00.0; 2. Zerkson, SE, 1,088:00.0; 3. Zerkson, SE, 1,088:00.0.
819,200—1. Russ Thompson, SE, 2,176:00.0; 2. Russ Thompson, SE, 2,176:00.0; 3. Russ Thompson, SE, 2,176:00.0.
1,638,400—1. Russ Thompson, SE, 4,352:00.0; 2. Russ Thompson, SE, 4,352:00.0; 3. Russ Thompson, SE, 4,352:00.0.
3,276,800—1. Russ Thompson, SE, 8,704:00.0; 2. Russ Thompson, SE, 8,704:00.0; 3. Russ Thompson, SE, 8,704:00.0.
6,553,600—1. Russ Thompson, SE, 17,408:00.0; 2. Russ Thompson, SE, 17,408:00.0; 3. Russ Thompson, SE, 17,408:00.0.

WARREN KAHLER
The Sandbagger

KAHLER BOWLS SERIES OF 503 IN WHEELCHAIR

A 500 series in bowling. You say that isn't too good. Well it is if you are bowling from a wheelchair.

Warren Kahler, a bowler in the Lincoln Journal-Star League, rolled a 503 series Tuesday afternoon on the Hollywood Bowl lanes.

Warren, who carries an average of 120, bowled games of 177, 195, and 131 to top his previous high series by 46 pins.

The 33-year-old Journal-Star employee was crippled by polio in 1952, but he has not allowed the handicap to stop his love for sports.

Peruvian, Go Home!

Singapore (P)—A soccer match between the Cristal Club of Peru and a Singapore armed services team was called off with 4 minutes left to play Tuesday when the crowd began showering rocks on the visitors. Peru led 1-0.

To Coach U.S. Squad

San Francisco (P)—Mike Ryan, veteran track coach who ran in the 1908 and 1912 Olympic Games marathons, will be an assistant coach of the U.S. track team that meets Poland and Russia this summer.

If you can repay \$56.00* monthly... you can get \$1102.53 the minute you want it

Or, if you want cash in another amount... more or less... why not phone and tell us how much! If you prefer, stop in. We'll be glad to help.

*On 24 month repayment plan.

BUDGETS SET FOR '61 CITY ATHLETICS

Athletics in Lincoln's 3 public high schools is a costly proposition.

The Board of Education Tuesday approved budgets for the 1962-63 school year totaling over \$46,000 for the 3 programs.

Northeast's proposed expenses were the highest—\$15,809.27 for expenses in all sports. Southeast listed \$15,562.21 and Lincoln High \$15,557.90.

Expenses include operation of varsity, reserve, and sophomore teams.

Proceeds from athletic events are utilized to offset expenses. It was reported that income from last year's events came within \$1,500 of meeting total expenses.

Starting next fall, some athletic income will be channeled towards the cost of Seacrest Field, the new home football field for all 3 schools.

Football naturally was the big expense, falling just shy of \$20,000. An added grid expense of \$2,800 was incurred with the need for 800 mouthpieces, a national requirement for prep and college teams next fall.

	Office	Budget	Actual	NE
Baseball	1,236.10	1,274.15	1,011.65	
Basketball	1,889.75	2,172.15	2,783.50

Track	1,960.00	1,842.70	1,200.82	
Wrestling	1,177.50	1,023.50	896.15	
Totals	\$15,557.90	\$15,562.21	\$15,809.27	

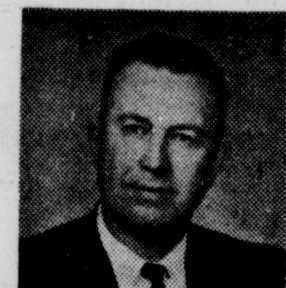

Derby Hopeful Hit By Fever

San Bruno, Calif. (P)—Sir Ribot, a prime California contender for the Kentucky Derby, was declared out of the April 21 California Derby Tuesday because of a fever.

Trainer Frank Childs said the temperamental 3-year-old was running the 102-degree fever after he won Saturday's California Derby trial. His owners, Mr. and Mrs. Fred Turner, had planned to make Sir Ribot a supplementary nominee for the \$35,000 California Derby, last western prep before the Kentucky race.

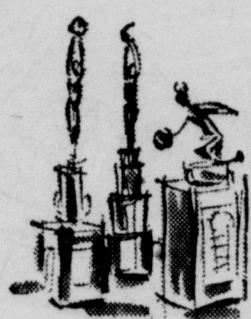

Childs said Sir Ribot might have had the fever before the Derby trial, in which he ran sluggishly.

W. N. "Sparky" Stalcup, veteran basketball coach of the University of Missouri, will direct the United States collegiate and professional aces against the Harlem Globetrotters at Pershing Auditorium at 8 p.m. Monday.

Selection of Stalcup is a further tribute to the esteemed gentleman, who is retiring as Mizzou cage mentor after 16 years to take up his duties as assistant director of athletics to Don Faurot.

Coaching the U.S. Stars thus aptly climaxes a career that has spanned almost 30 years since his first coaching job at Jackson High School (Mo.) in 1933.

He was hired at Mizzou in 1946 as George Edwards' successor, after an 11-year tour of duty at his alma mater, Northwest Missouri State College in Maryville. At Missouri his teams compiled a 195-179 won-lost record. At Maryville, the Stalcup ledger showed 152 wins and 56 losses. That gives the affable MU skipper an overall mark of 347 victories and 235 defeats.

As current president of the National Basketball Coaches Association, Sparky participated in corner-stone laying ceremonies officially launching the new Hall of Fame building in Springfield, Mass., early last November.

SPARKY STALCUP

He played his college basketball under Henry Iba, Oklahoma State's longtime

coach and athletic director. He was a second team AAU all-American, all-conference both in football and basketball, and a broad-jumper on the track squad.

Graduated from Maryville in 1932, Sparky coached at Oregon High School for one year—a brief apprenticeship for the college assignment he undertook at his alma mater when Iba left for the Colorado job in 1934.

Dean of the Big 8's coaches, Stalcup served for several

*All cars except those in Class A have automatic transmissions.

Delivers All-Car Average of 22.70 Miles Per Gallon.

This USAC-certified mileage record was scored by regular stock cars in the 1962 Mobil Economy Run—world's greatest official test of gasoline mileage economy. All of these cars used exclusively either Mobil Premium or Mobil Regular gasoline with the highest Megatane Ratings of any leading gasolines.

Now—Mobil² gasolines have been tested in almost every make of American car. This year 46 cars were entered in the Mobil Economy Run; they traveled 2,497 miles at normal speed from Los Angeles to Detroit—across deserts, over mountains, through crowded city streets... delivered convincing records of the mileage-economy potential of Megatane-Rated Mobil!

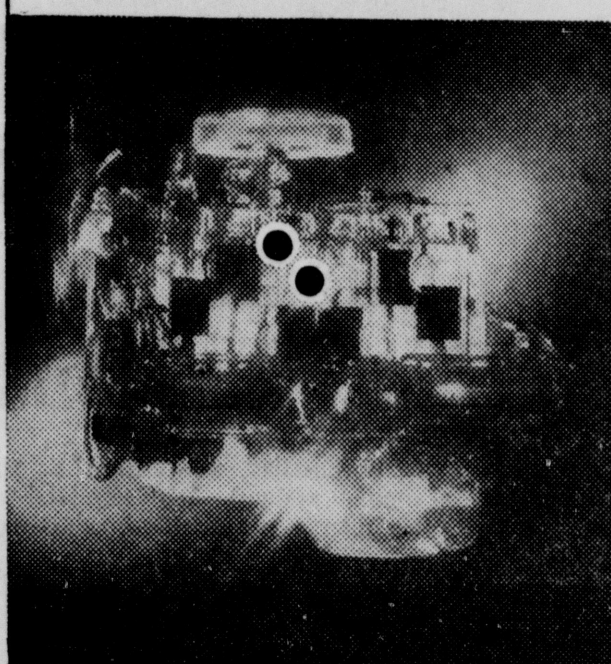

Certified Results!

This advertisement approved and the Mobil Economy Run data certified true by United States Auto Club.

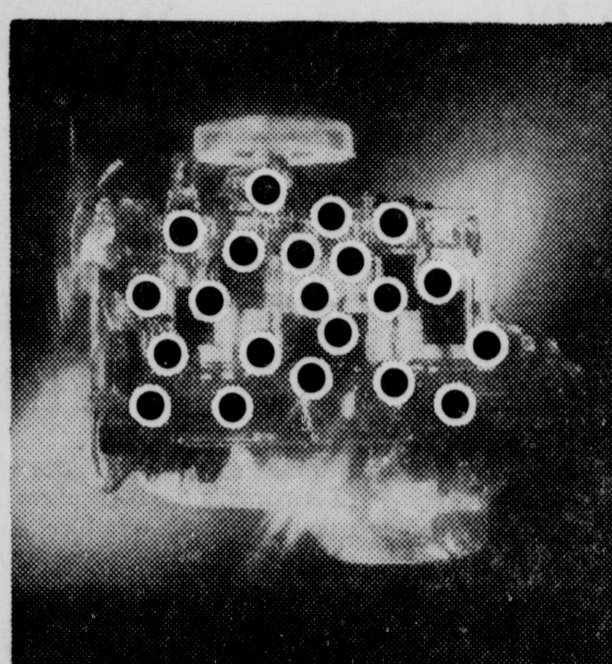

For Mileage Economy and Top Performance Get Mobil with the Highest Megatane Ratings of Any Leading Gasolines!

DON'T MAKE THE OCTANE MISTAKE!

Octane Rating measures only 2 of your motor's needs

Megatane Rating measures 21 of your motor's needs

The Higher the Megatane Rating the Better Your Motor Will Run!

Octane rating measures only 2 of the qualities your car needs in a gasoline... 2 very important qualities—both dealing with anti-knock. The result: many people make the Octane Mistake! They consider only Octane ratings when buying gasoline and overlook many other important qualities made possible by brilliant scientific advances. Qualities that can truly give you a cleaner motor, more mileage

and power, longer life and fewer repair bills.

That's why Mobil's engineers measure and express gasoline quality in a rating system called the Megatane System which enables you to judge not just Octane qualities, but the total performance of your gasoline. Megatane includes Octane, of course, but goes far beyond Octane to measure not just 2, but 21, of your motor's needs.

Whether your car is designed to run on Regular or Premium—the best gasoline for your car is Megatane-Rated Mobil!

How do you know before you buy? Mobil's Megatane Rating System tells you. While no gasoline has a perfect Megatane Rating of 21, Mobil Premium at 19⁺ rates highest of any leading Premium. Mobil Regular at 16⁺ rates higher than any leading Regular gasoline. Grade for grade, Mobil gives you more of the important qualities that combine to give outstanding performance and mileage economy.

At first, this Mobil difference may not be apparent to you, but five, ten, twenty thousand miles from now your motor will know the difference... in more mileage, in less loss of power, and in longer prime of life.

So, save your motor as well as your pocketbook! Get Mobil with the highest Megatane Ratings of any leading gasolines!

†Add 1 extra rating point for de-icer where use depends on climatic conditions.

Yankee Hill BRICK

will give you beauty, comfort,
permanence and economy

Peter Catches Comet In His Camera Lens

By GENE BUDIG
Star Staff Writer

A Lincoln teenager, who has always wanted to know "just what's up there," spotted and photographed a new comet in the sky this week. "It's the Seki-Lines Comet," reported a jubilant Peter Schultz of 2625 No. Eden Drive.

The amateur astronomer tracked the publicized comet for a 10-minute exposure with his Army surplus camera. "I've waited two months for this," he said, noting that

his photogenic subject is the brightest comet seen in 5 years.

Spouting solar system data as most kids do baseball player batting averages, Peter defined the comet as "a clump of meteors surrounded by gas."

He said the newcomer has a tail — most likely formed by the expulsion of gases.

The comet was jointly discovered last Feb. 4 by Tsutomu Seki of Japan and E. D. Lines of Phoenix, Ariz.

Lines has said the comet will be visible for the next week or 10 days and then fade away forever. Peter agrees with this approximation.

But Lincoln's junior astronomer plans to enjoy the unheard-of show of aerial nature while it lasts.

Peter Schultz displays his photograph of a new comet.

ISRAEL IS DISPLEASED

...By U.N. Action

Jerusalem, Israeli Sector (AP) —The Israeli Parliament Tuesday adopted a resolution, 76 votes to 3, charging Monday's Security Council resolution on the Syria-Israel border clashes was one-sided.

Parliament acted after two hours of debate and a statement by Premier David Ben-Gurion who said the U.N. Security Council resolution "constitutes an injustice which encourages aggression and endangers peace."

The resolution said "Israel is surrounded by hostile countries maintaining a constant state of belligerence with her. The Knesset (Parliament) declares that Israel's right to self-defense is an unchallengeable sovereign right which is assured to every nation by the U.N. Charter. Israel... will not submit to aggression."

Truman To Get Creighton 'U' LL.D. Degree

Omaha (AP) — Former President Harry S. Truman will receive an honorary Doctor of Laws degree from Creighton University Sunday.

The degree will be conferred by the Very Rev. H. W. Linn, S. J., Creighton president, at the end of the annual Alpha Sigma Nu lecture to be delivered by Truman.

The former president will arrive in Omaha Saturday afternoon, hold a press conference and attend a dinner and reception.

His Sunday schedule includes a visit to Boys Town at mid-day and a public reception and banquet. He leaves Monday.

Growth Noted At Salvation Army Meeting

Interest, influence and practical programming were credited Tuesday night for the continued growth of Lincoln's Salvation Army.

"We owe much to many men and women who gave generously of their time to promote our religious and character building programs," said one official at the group's annual report meeting.

At the meeting, it was pointed out that both attendance and membership were up for 1961.

Attendance at Salvation Army functions during the past year was 60,354, while a family membership reached 225. It was 175 in 1960, according to the report.

Activities Varied

Activities are many and varied, ranging from table tennis to sewing and cooking classes.

"Schedules are built around the interests, activities and needs of the young and old, from 3 to 83," the official said. He said the program now attracts members from a much wider area than before.

Praise-through letters — was given by Lincoln Mayor Bartlett Boyles, State Penitentiary Warden Maurice Sigler, Police Chief Joseph Carroll and Wilfred Nuernberger, juvenile judge.

Complimentary remarks also came from the meeting's speaker, District Judge Herbert Ronin.

Junque I Guess

London (UPI) — A sign in a London furniture store advertised: "Antiques and junque."

2 Young Artists Given Audience's Approval

By RUTH ARDIS

Jo Ann Otradosky, pianist, and Robert Probasco, oboist, were soloists with the Lincoln Symphony Tuesday night at the final concert of the 35th season.

These young people had been chosen as audition winners from among a group of 31 who tried out for the honor of appearing with the Symphony. The large audience at the Stuart Theater gave its whole-hearted approval of their talent and musical ability.

Miss Otradosky played the first movement of Beethoven's C Minor Concerto. There was a mature comprehension coupled with a youthful dexterous technique. The cadenza was authoritative and well-controlled. The entire performance was poised and musically impressive.

Probasco's performance of Haydn's Concerto for Oboe in C Major was notable for the excellent tone quality and control, and it brought a warm response from the audience. He is probably one of the youngest audition winners, and the first to perform on this instrument.

There was a fine balance between the soloists and orchestra, although some of the

orchestral entrances were not too precise.

Conductor Leo Kopp chose Dvorak's Symphony No. 4 in G Major as the principal work of the evening. This is not one of the composer's most frequently heard works, but the melodic third movement is charming and gay, even in a minor key, and deserves a place of its own in lighter symphonic literature.

The luscious, muted harmonies of Delius were heard in "The Walk to the Paradise Garden," which was well performed by the orchestra.

The Lincoln Symphony is to be congratulated for its continued efforts to provide good music, and specifically, for providing an opportunity for the young people to share their talents with the community. The children's concerts also give many delightful moments and tonal illustrations of the rich treasury of orchestral music to the school population.

Police Investigate

Pont Saint Esprit, France (UPI) — Police investigated reports that sabotage may have caused a series of explosions that killed at least 18 persons and injured 27 in a nearby gunpowder factory.

WHEN THEY SAY "NEW SIZE" They really mean Rambler size!

There's a lot of chest-thumping by some 1962 cars which claim to be "new size." Fact is, six years ago, we brought out a new size car—a big-room, high-performance Rambler. Newest version is today's Rambler Classic—which Chevy II and Fairlane have tried to copy. In outside dimensions they come fairly close. In room and performance, they fall short. Rambler Classic is still the only car with the BEST OF BOTH: big-car room and performance; compact-car price, economy, handling ease.

COMPARE ROOM AND PERFORMANCE*			
	RAMBLER Classic 6	CHEVY II	FAIRLANE
MOST HEADROOM	YES	NO	NO
MOST SHOULDER ROOM	YES	NO	NO
MOST HIP ROOM	YES	NO	NO
MOST HORSEPOWER	YES	NO	NO
MOST TORQUE (Passing Power)	YES	NO	NO

*Standard 6-cylinder 4-door sedans

THE RAMBLER CLASSIC SIZE

CLASSIC

190 inches

CHEVY II

183 inches

FAIRLANE

197.6 inches

They can copy the size, but they can't match Rambler's customer benefits!

Rambler's "new size" idea has made it one of America's top best sellers. In the past six months alone, Rambler has set a sales record above any corresponding period.

The soaring sales are due, in good measure, to the greater room and power Rambler has — compared to imitators. Rambler is the only car within hundreds of dollars of its low price that gives six big 6-footers full headroom, hip room and shoulder room.

Biggest reason for Rambler's best-selling success is unmatched excellence of design, quality, and its host of advanced features.

Just compare and see.

Rambler's Double-Safety Brake System provides separate braking front and rear

(only Cadillac, no other U.S. car, has a similar system). It's standard on 1962 Ramblers—as are self-adjusting brakes.

Rustproofing. Rambler spills more than others use—literally—in the exclusive Deep-Dip bath where each body is immersed up to the roof in rustproofing primer paint.

Ceramic-Armored muffler and tailpipe. We'll pay the cost if either rusts out, for original owner—collision damage excepted. Just go to a Rambler dealer for free replacement. No time limit.

Interiors are the most comfortable of any car, with comfort options like Airliner Reclining Seats, Reclining Bucket Seats, Adjustable Headrests, Lounge-Tilt Seat.

Full-size wheels and tires are standard on Rambler—instead of small 13" foreign-car size on Rambler's imitators.

These are just a few examples of the great lengths Rambler goes to—bring you a better built, longer lasting, safer, more useful automobile—at a lower price.

Get the complete facts in the 1962 Car X-Ray Books—free at your Rambler dealer's!

1,300 KINGPINS IN ILLEGAL DRUG TRADE UNDER ACTIVE SCRUTINY

Washington (AP) — Harry Anslinger, U.S. commissioner of narcotics, said Tuesday the government is investigating about 1,000 kingpins associated with the illegal drug trade.

Anslinger told a reporter that several hundred of these have supposedly legitimate business interests which he said are used as a cover for illicit activities.

The commissioner reported that the narcotics bureau has compiled a secret manual with dossiers on more than 1,300 individuals whom he described as key distributors and smugglers of narcotics. The manual contains 5 Nebraska names.

He said about 300 of those listed already have been convicted on criminal charges or deported.

He said some others face

criminal or deportation proceedings but that the big majority are still under active and continuing investigation.

Anslinger displayed the manual — a black-bound volume about 4 inches thick — but would not let a reporter handle it.

He reported that a great

News Conference To Be Broadcast Live

Washington (UPI) — President Kennedy's news conference at 2:30 p.m., CST, Wednesday will be broadcast live on all radio networks and on the NBC television network, the White House said Tuesday.

Videotapes of the session will be presented at 4 p.m., CST, by the CBS and ABC television networks, the White House said.

many of those on the list are garment manufacturers or night club operators. He listed among other occupations represented:

Liquor distributing, insurance, real estate, commercial fishing, auto sales, baking, trucking, construction, juke boxes and mining.

About half of those on the list live in New York state. Anslinger gave this as an approximate state-by-state breakdown of the names in the book:

Arizona 3; California 116; Colorado 10; Connecticut 6; Florida 80; Illinois 90; Iowa 1; Louisiana 18; Maryland 4; Massachusetts 8; Michigan 80; Missouri 58; Nebraska 5; Nevada 1; New Jersey 80; New York 700; Ohio 34; Pennsylvania 44; Rhode Island 2; Texas 7; Virginia 1; and Wisconsin 1.

Smallpox Deaths In South Wales Mount

Cardiff, Wales (AP) — The Welsh Board of Health Tuesday announced two more deaths from smallpox. This brought the deaths in the latest South Wales outbreak to 4.

All were patients transferred from Glanrhyd Mental Hospital at Bridgend to Blackmill Isolation Hospital when the outbreak started Friday.

Elderly Omahan Dies Of Attack

Omaha (AP) — The burned body of an elderly man was found at his home.

He was 79-year-old Ambrose J. Gleason, who suffered a heart condition.

Authorities said Gleason apparently died of a heart attack after his clothing caught fire while he was preparing coffee over a gas stove.

ARMY DIET MAY BE LESS FATTY

Washington (AP) — The Army is studying a recommendation that the military diet be made less fatty to cut down on a high death and disability rate from an artery ailment.

The recommendation was made by two Army doctors last November in a paper presented at a meeting of military surgeons. An Army spokesman said Tuesday it is being reviewed, as are all proposals of this sort.

Col. Weldon J. Walker and Lt. Col. Jacques L. Sherman said in their paper that the disease — atherosclerosis — "is the leading cause of death from disease among active-duty personnel of the U.S. Army."

They said the death and disability rate from atherosclerosis is 7 times as great among officers as among enlisted personnel, largely because the officers generally are older.

"In general, populations who are best fed and ingest the most dietary fat seem to have the most atherosclerosis," Walker and Sherman said.

They said the results of population studies show that the standard Army diet is of the type that has been associated with an increased incidence of the disease.
